Chapter 2 Installation and removal

Please install necessary software before starting up e-Plus Lab5. This chapter will introduce basic installation and configuration.

2.1 Install requirement

Hardware requirement for teacher and student PC

	Teacher PC(Recommend)	Student PC(Recommend)
CPU	Intel Core i5	Intel Core i3
MEMORY	2G or above	1G or above
HD	500G or above	250G or above
AUDIO	16-Bit Audio Card	16-Bit Audio Card
LAN	100/1000 Mbps	100/1000 Mbps
OS	Windows XP/ 7 / 8 / 10	Windows XP/ 7 / 8 / 10

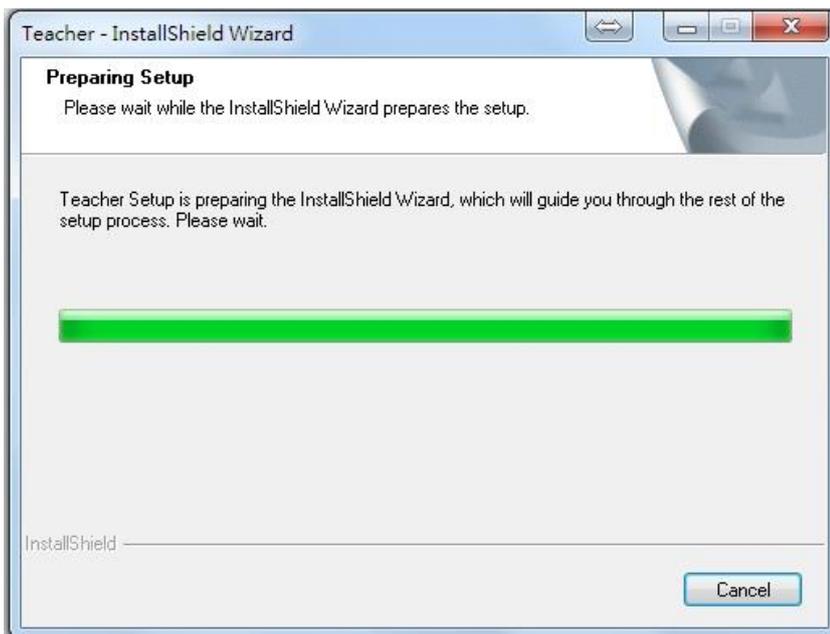

Software requirement:

Please make sure teacher and student PCs have installed Microsoft windows OS, Microsoft Windows XP/7 is recommended.

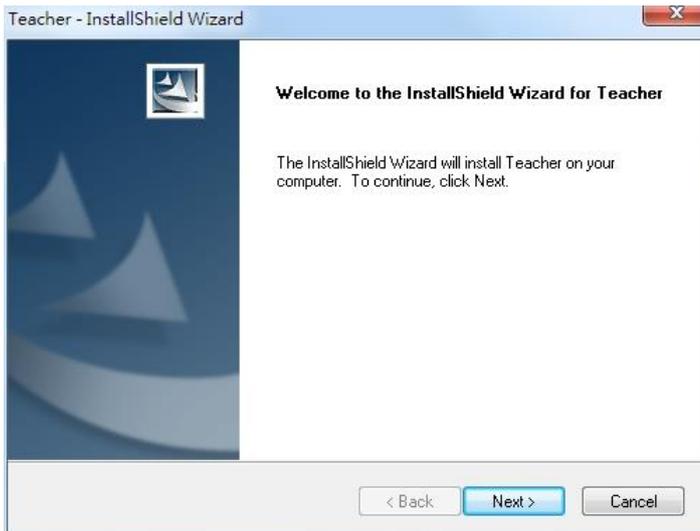

e-PLUS LAB5 package box including **User Manual*1**, **Installation CD*1**, **USB lock*1**, please contact us if anything omitted.

2.2 Install Software at Teacher PC

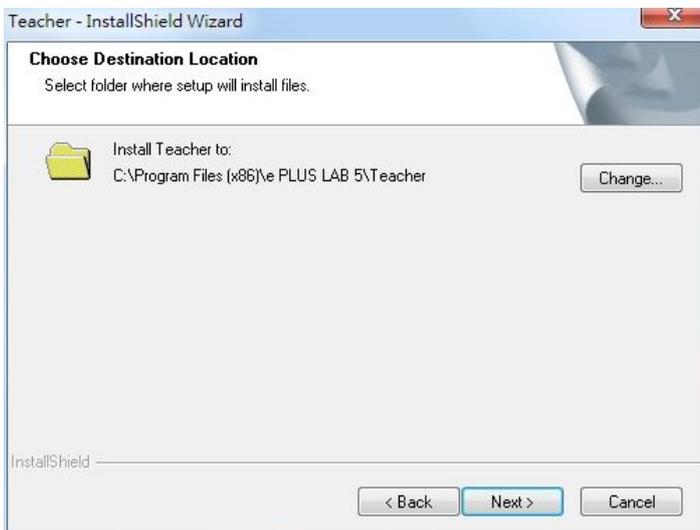

(1) Execute teacher Installation of e-Plus Lab5

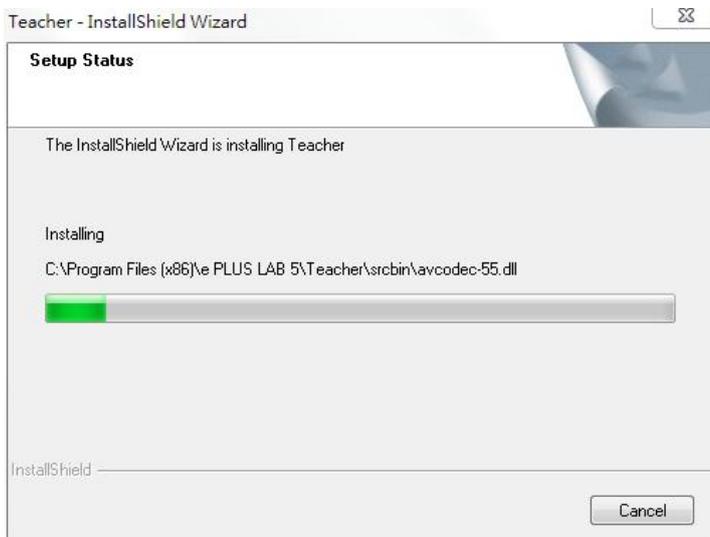

(2) Click **【Next】**

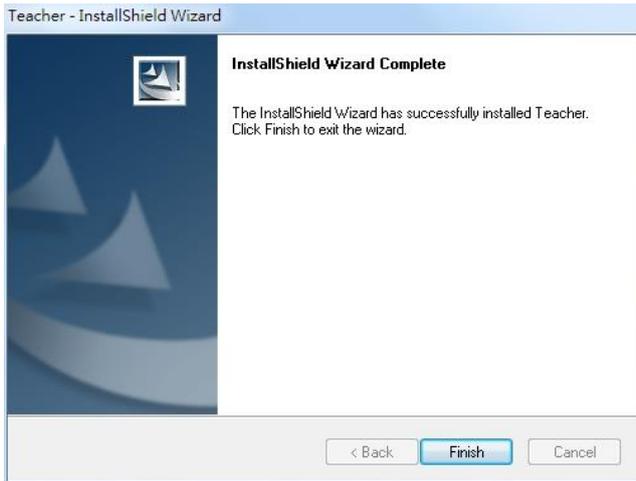

(3) Select Installation path → **【Next】**

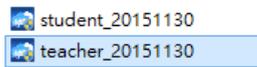

(4) Starting install

(5) Installation complete

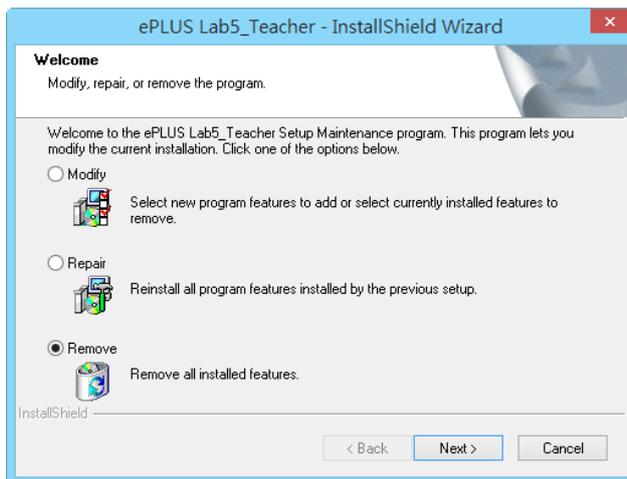

2.3 Remove Software at Teacher PC

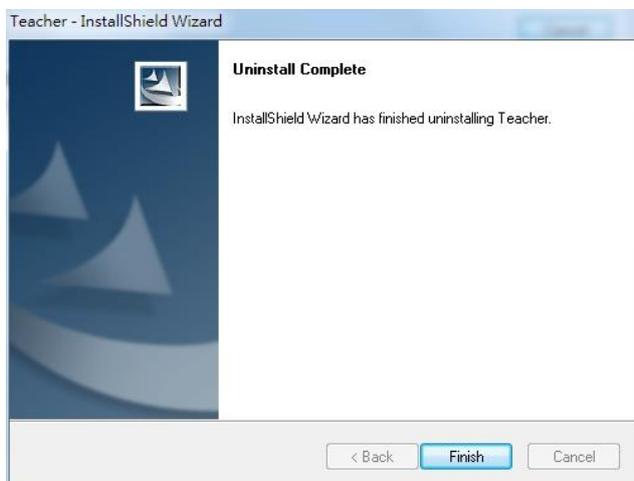

Click setup icon of teacher

(1) Select **【Remove】** → **【Next】**

(2) Complete!

2.4 Install and removal at Student PC

The following steps are the same as Teacher P

2.5 Start e-Plus Lab5

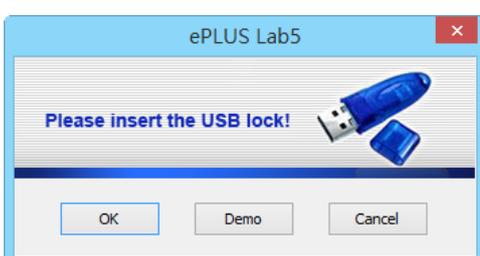

Open e-Plus Lab5 on teacher PC

(1) Select user and password → **【Login】**

If the password is not setting yet, click **【Login】** to enter the system

(2) If pop up the following window, please insert USB lock.

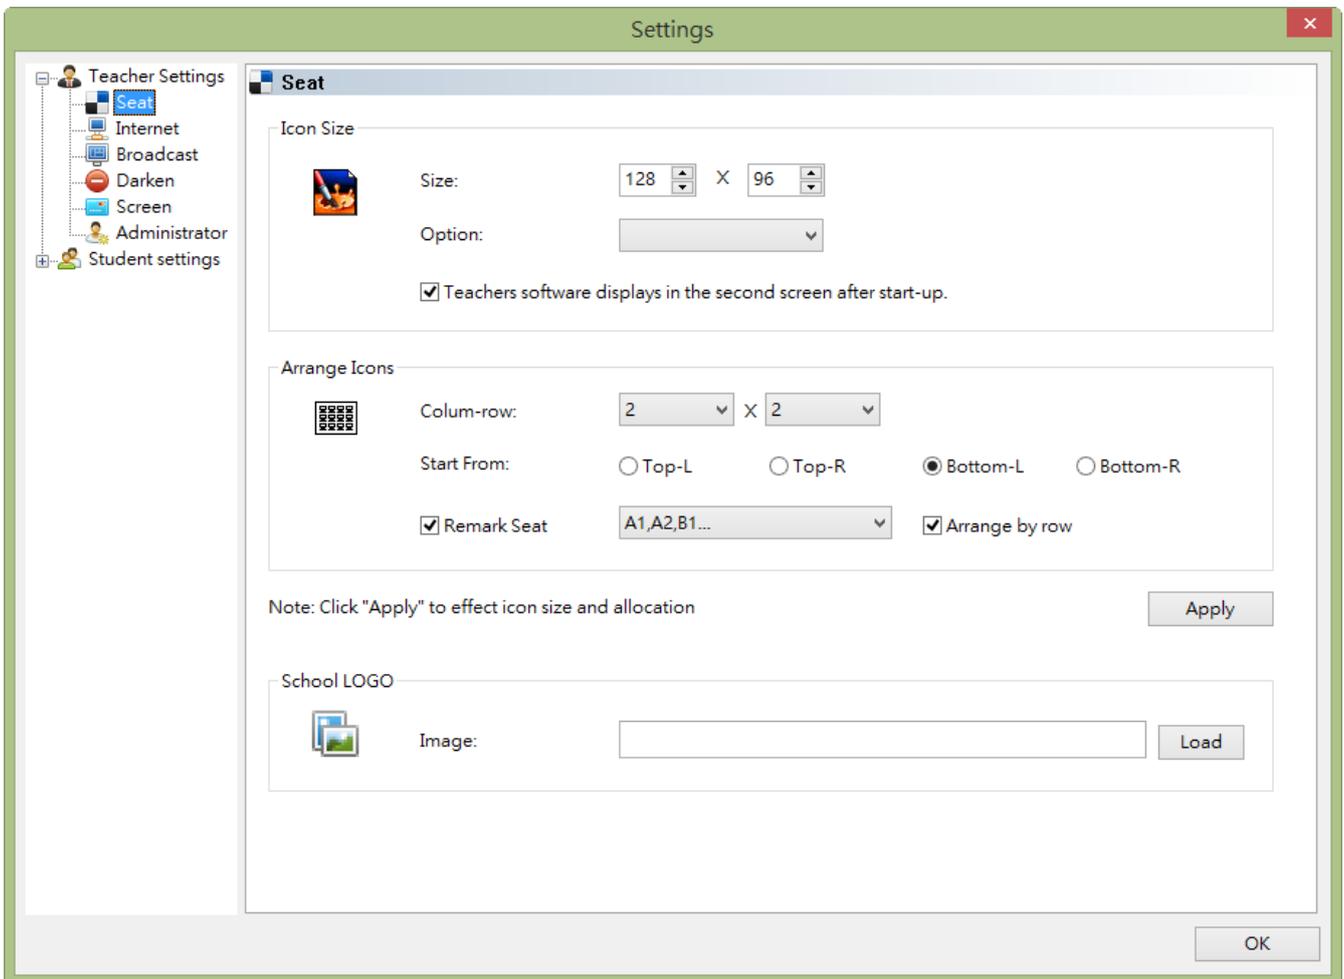

Chapter 3 Funtions and Operations

3.1 Setting

On the upper right of the interface you can see setting button : From left to right are **Language, Help, Settings, Minimum, Maximum, Exit**

- (1) Language: Up to 18 language interface
- (2) Help: Reserved function
- (3) Settings: Software settings of teacher PC and student PC

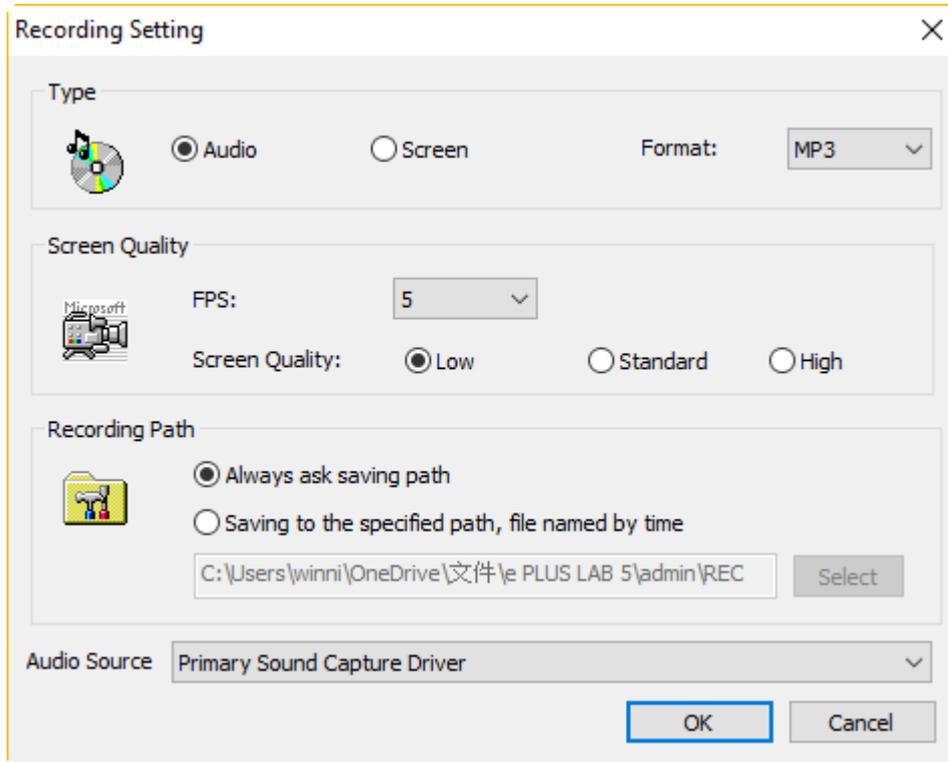

Recorder

Teacher and students can record the PC screen or mic. input by the recorder on the bottom right corner.

Click  to decide the recording type.

- To-Collect file type: Select the file type you want to collect from student PC, such as jpg, png, office, wav, mp3, etc.
- To-Collect file path at student PC: For example C:\Desktop\Homework
- Save file at: Saving path of student PC
- As the setting complete, click **【Collect】**

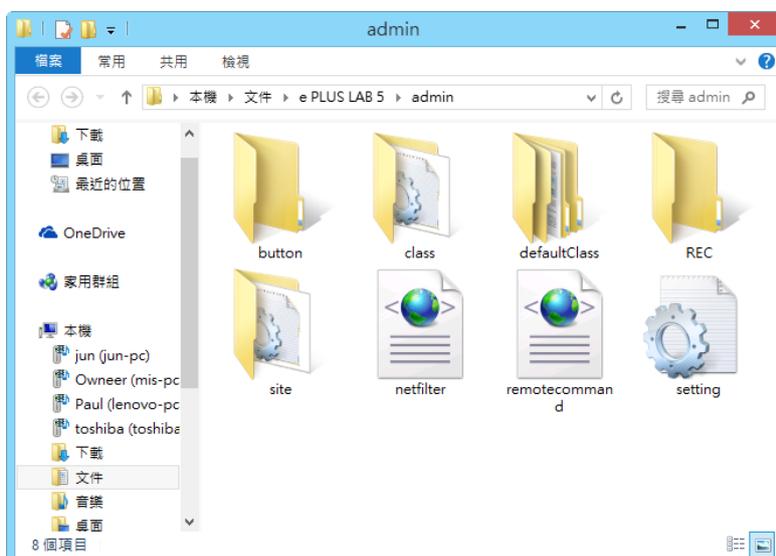

3.3.9 Check File

Check the collected file from student PC

3.3.10 File Management

An easy way to open Lab 5 files of teacher PC

3.4 Exam

3.4.1 Online Exam

Combine with online exam system/website, go to setting first before start this function.

- (1) Online Exam setting: Click  on the upper right to the setting window → **【Teacher】**
→ **【Internet】** → Server URL setting → Input Online test URL

Server URL setting

Online test URL:	<input type="text"/>
VOD server URL:	<input type="text"/>

- (2) Click **【Online Exm】** to start the function

3.4.2 Quiz

Teacher can understand students' learning condition by doing quiz, the data can be statistically analyzed.

- (1) Select question type: Choice, True/False

Choice:

Type(T):
Choice

Question(Q):
What is the largest cuntry (in size) in the world?

Correct answer:
 A USA
 B Canada
 C China
 D Russia
 E
 F
 G
 H

Statistics:
Name Correct answer Answer

Diagram analysis:

Time: 1 Min. 0 Sec. Remaining Time: 00:00 Start(S) Close(C)

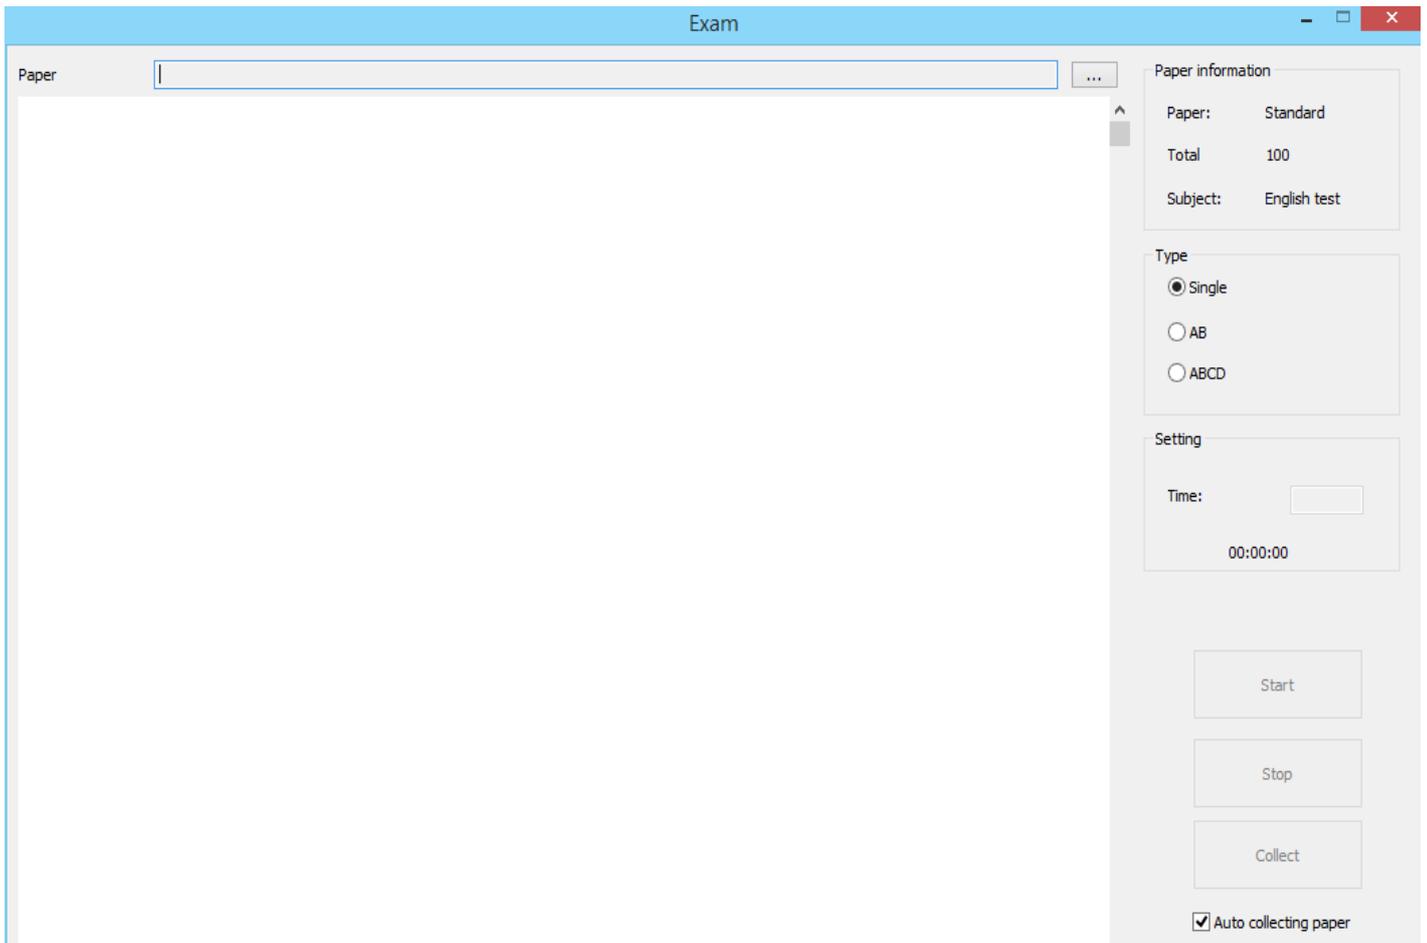

True/False:

The screenshot shows a software window titled "Quiz". The window is divided into several functional areas:

- Type(T):** A dropdown menu currently showing "Judge".
- Question(Q):** A text area containing the question: "A discussion may consist of many forums."
- Correct answer:** Two radio buttons are present, with "True" selected.
- Statistics:** A table with three columns: "Name", "Correct answer", and "Answer". The table is currently empty.
- Diagram analysis:** A large, empty rectangular box intended for a diagram.
- Bottom Bar:** Contains a timer showing "Time: 1 Min. 0 Sec.", "Remaining Time: 00:00", and two buttons: "Start(S)" and "Close(C)".

- (2) Click **Start** to start the quiz
- (3) After finish exam , you'll see the statistics and diagram analysis of students' answers
- (4) **Close** to exit the function

3.4.3 Exam

Load the edited paper for students to do the exam.

- ✓ Before the exam, you need to import the class on class management first. The system will create the data according to the class information, such as student ID/name of the imported class. Without importing class information, exam results will display only at student PC without analysis.

(1) Load edited paper by clicking 

(2) Select paper type: Single/AB/ABCD

- ✓ Able to preview AB/ABCD paper on the upper left of the window

(3) Time: Exam time

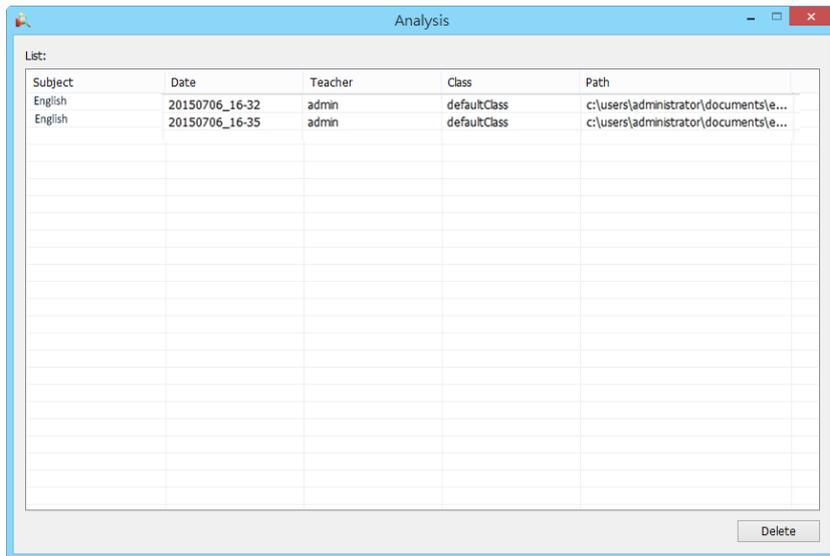

(4) Click **【Start】** to start exam → **【Stop】** to finish → **【Collect】**

3.4.4 Analysis

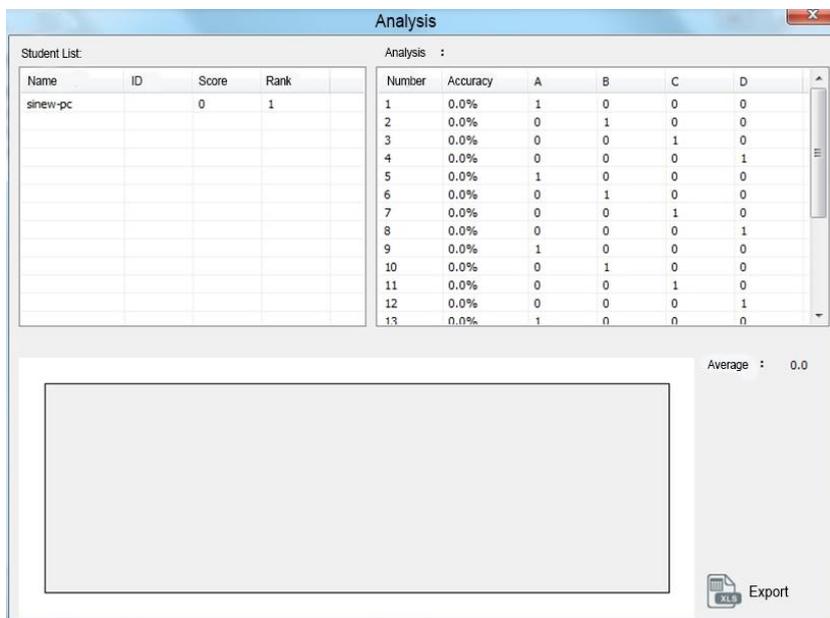

Analyze exam statistics and export as excel file.

(1) Click **【Analysis】** will pop out the window below:

(2) Select subject and class will start analyzing.

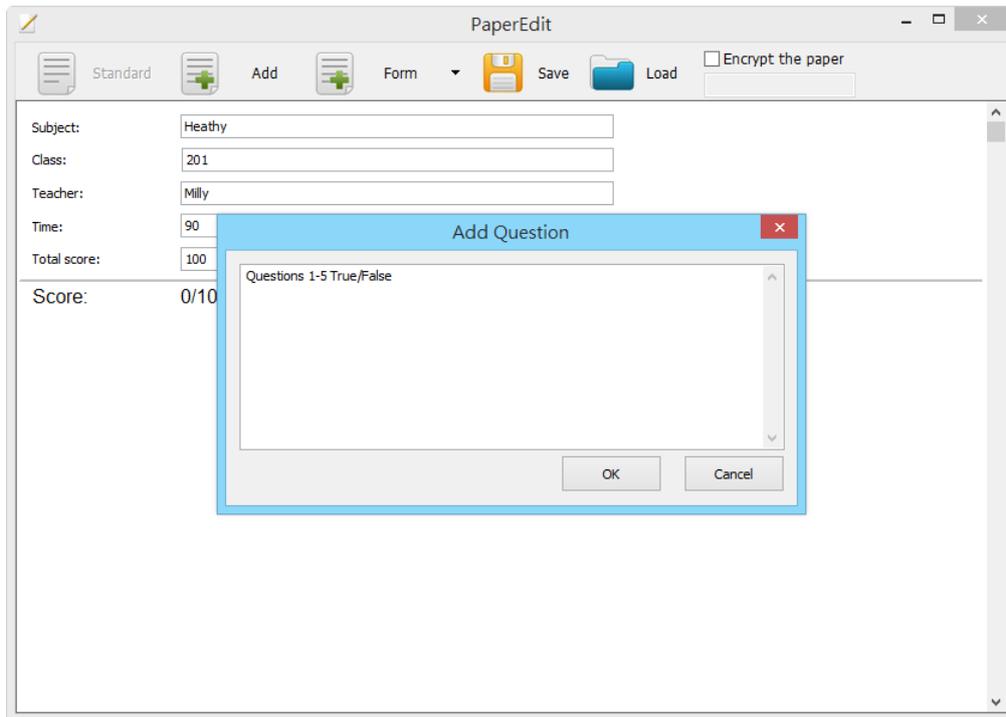

3.4.5 Paper edit

Edit exam paper for the exam function or send to students for self-exam.

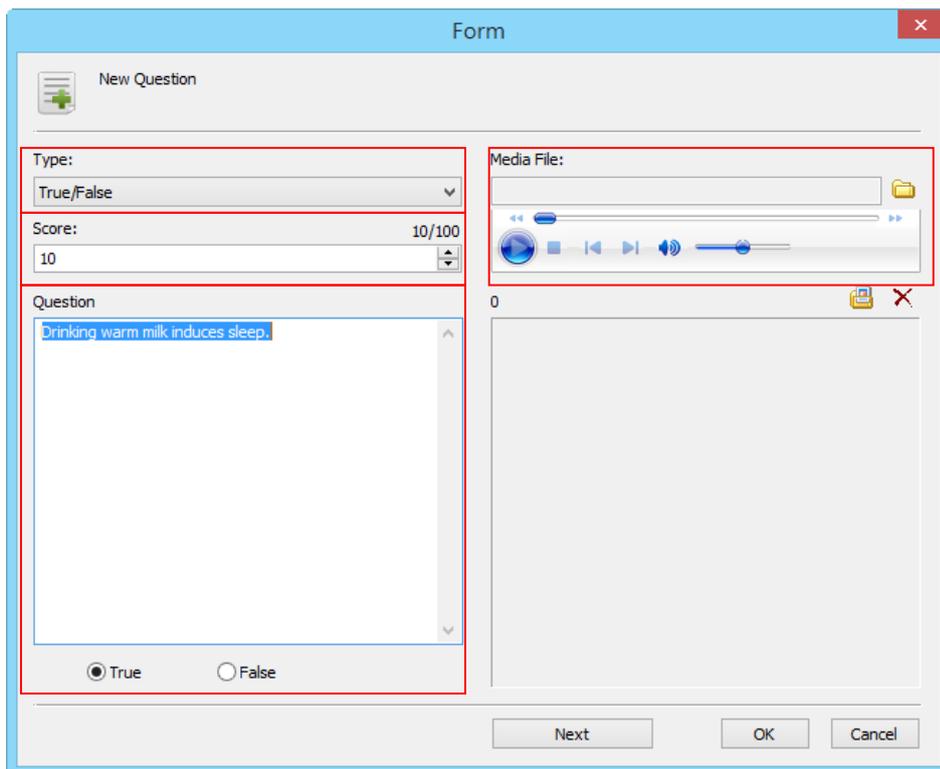

(1) Click **【Paper edit】**

(2) Edit and create questions by **【Add】** and **【Form】**

Add: Add questions

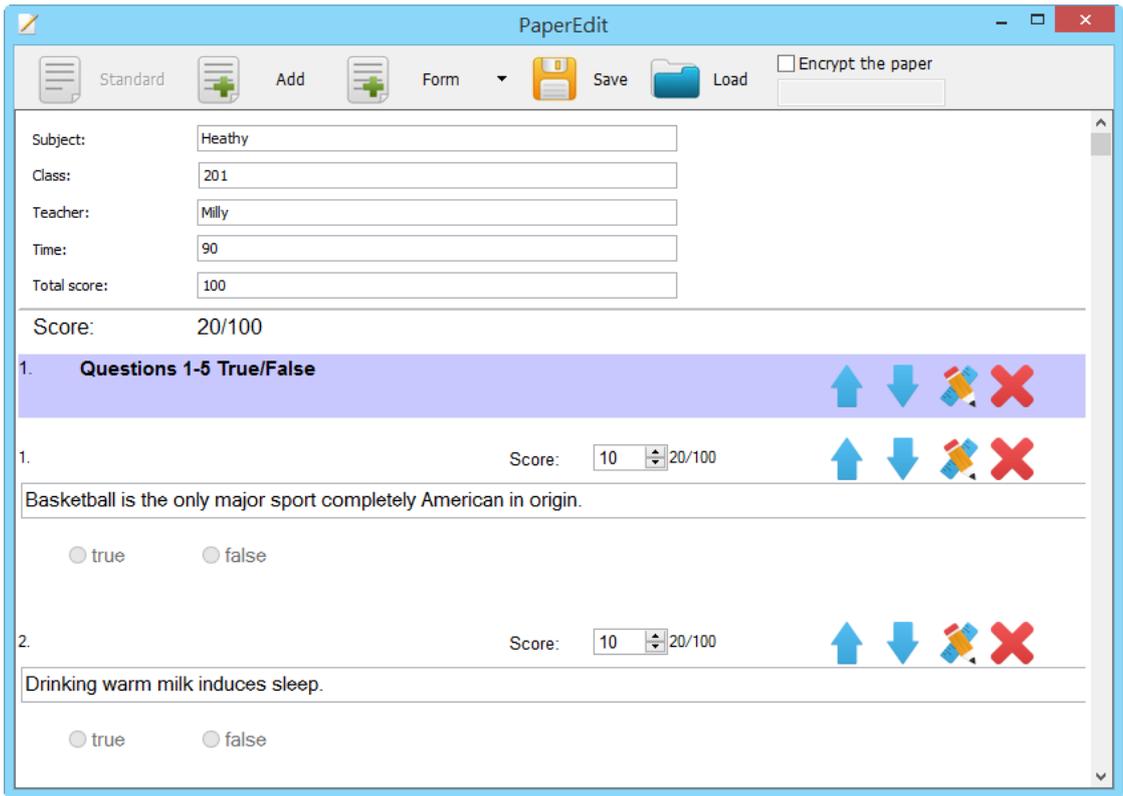

Form:

- a. Select a question type: Choice, Filling, True/False, Q&A
- b. Score: Set score of per question
- c. Input Question
- d. Also can upload media file or image

(3) Complete! Click **【Save】**

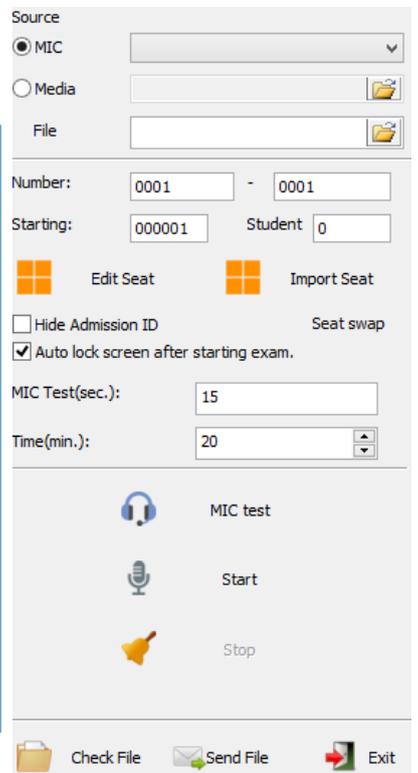

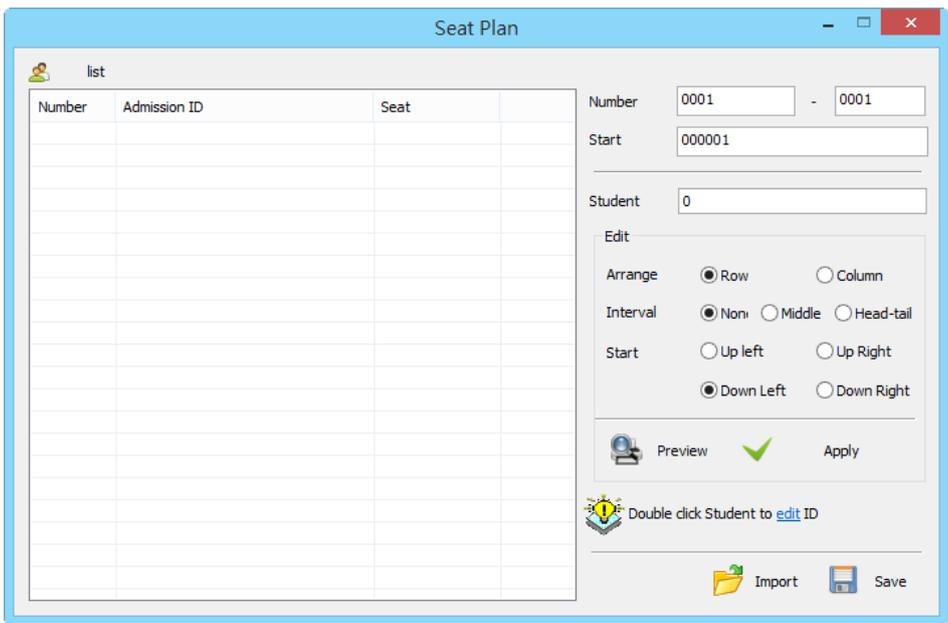

3.4.6 Oral Exam

Oral record students voice and save files relatively.

(1) Source: Media or teacher's MIC

(2) Edit seat (**Seat Plan**):

Number: Fixed serial number of the appointed subject's exam.

Start: Initial number of 1st student.

Student: Total students join the exam.

Preview: Preview the edited seat plan.

(3) MIC test: **Set the testing time** and click **【Start】** to start testing→ **【Stop】**

MIC Test(sec.):

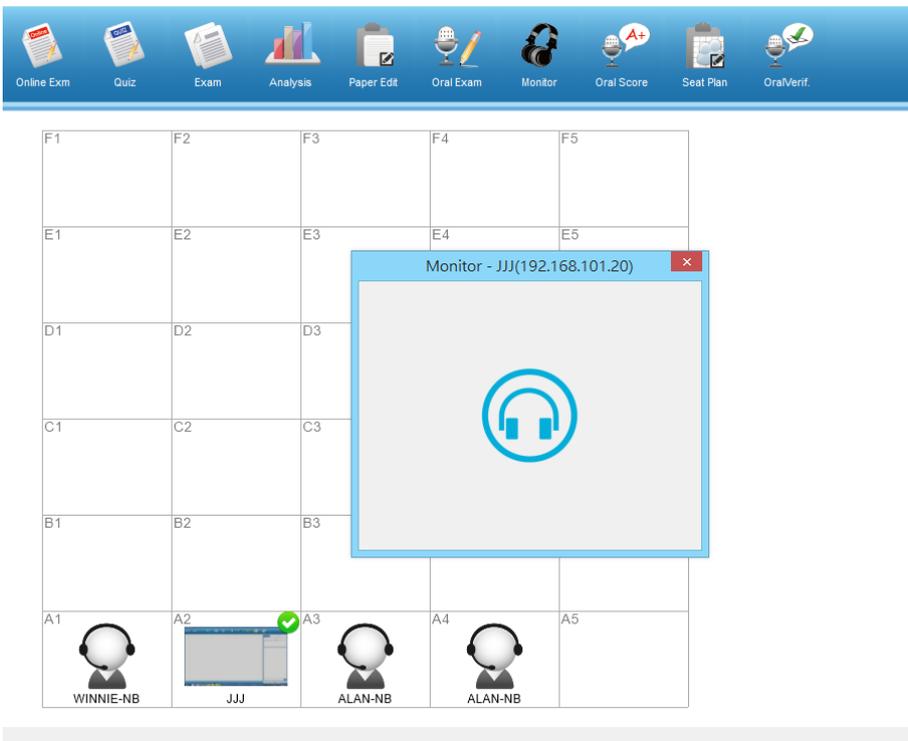

(4) After have students tested their MIC, **set the exam time**

Time(min.):

(5) Click **【Start】** to start exam, you will see “Start Oral” on students’ screen→click **【Stop】** to finish

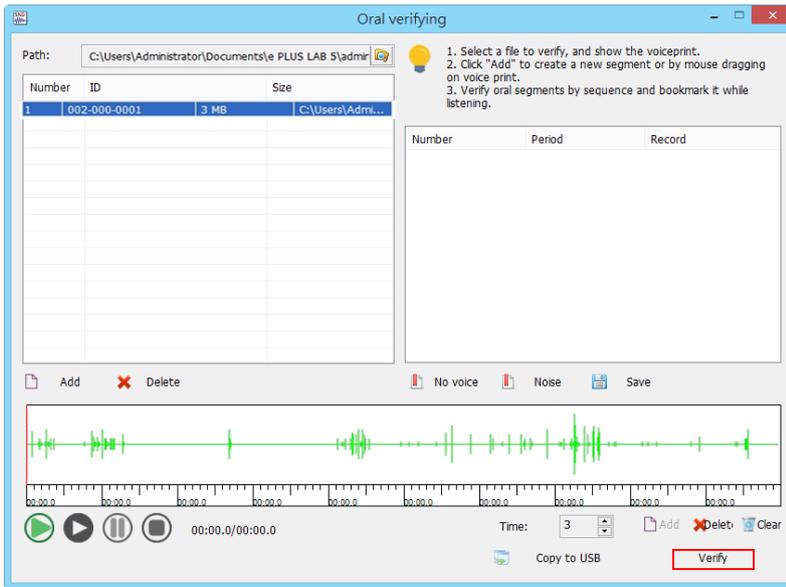

✓ Able to monitor appointed students’ voice or by turns during oral exam by clicking

F1	F2	F3	F4	F5

3.4.7 Monitor

Monitor **students' voice** during class

(1) Default is monitoring all students, students' voice will be listened by turns

(2) Appointed students: Select students by clicking → **【Monitor】**

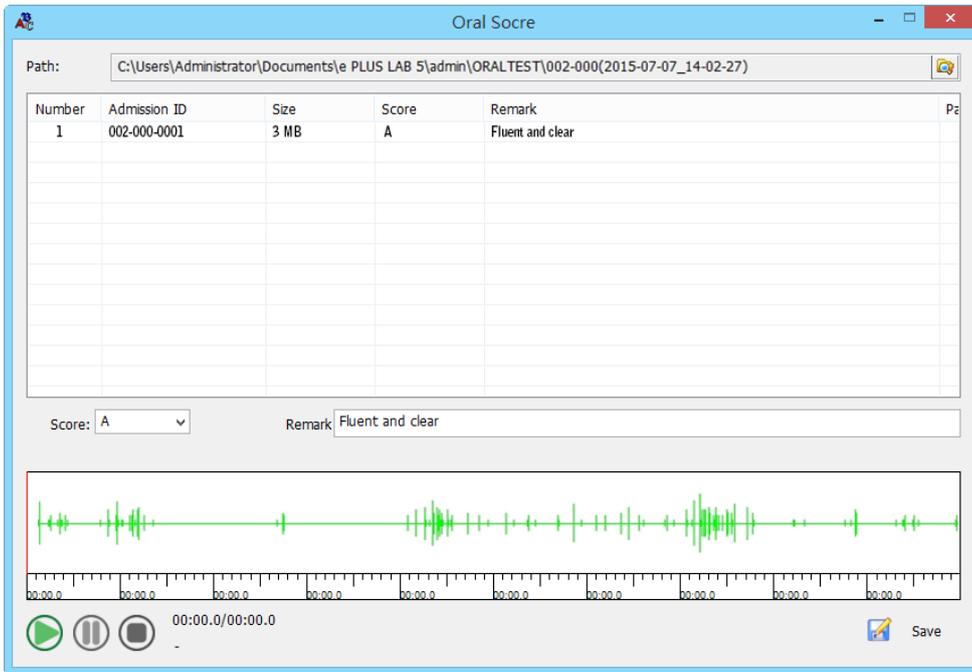

3.4.8 Oral Score

Give score and remark oral files of students'. Able to export as excel file.

(1) Load the recorded file

(2) Start playing and giving score/remark

(3) After this, click **【Save】** to save the file

3.4.9 Seat Plan

The operations of seat plan please follow [3.4.6 Oral Exam](#)(page 27) —(2)

3.4.10 Oral Verify

The operations of Oral verify please follow [3.4.6 Oral Exam](#)(page 27)—(5)

3.5 Manage

3.5.1 Boot

Remote boot St. PC

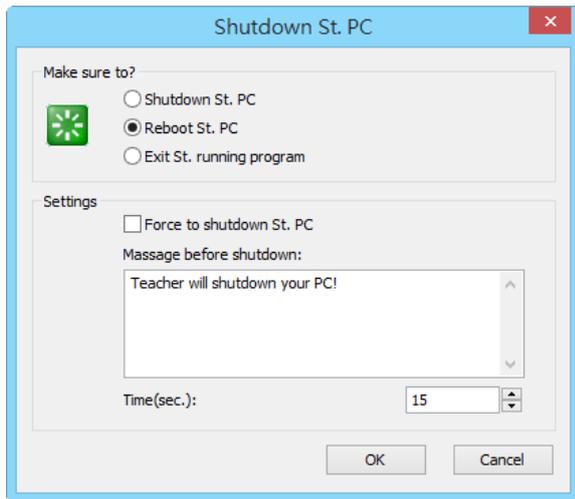

- (1) Default is to boot all students' PC
- (2) Appointed students: Select appointed students by clicking→ **【Boot】**

3.5.2 Reboot

Remote reboot St. PC

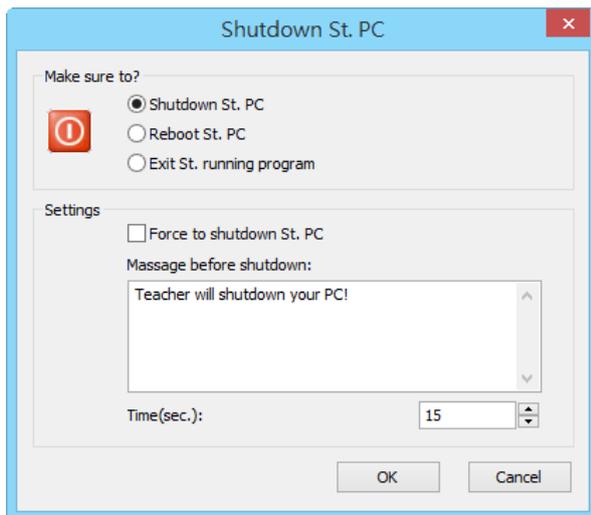

- (1) Default is to reboot all students' PC
- (2) Appointed students: Select appointed students by clicking→ **【Reboot】** → **【OK】**

3.5.3 Shut down

Remote shutdown St. PC

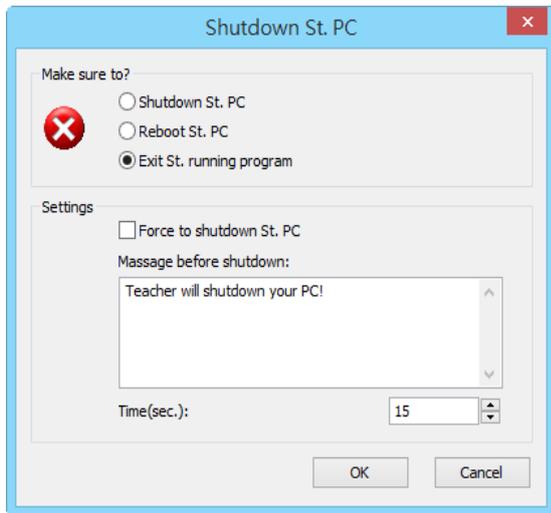

- (1) Default is to shutdown all students' PC
- (2) Appointed students: Select appointed students by clicking → **【Shutdown】** → **【OK】**

3.5.4 Exit Program

Exit every running program on students' PC

- (1) Default is to exit all students'
- (2) Appointed students: Select appointed students by clicking → **【Exit Pgm.】** → **【OK】**

3.5.5 Exit Students' e-Plus Lab5

- (1) Default is to exit all students'
- (2) Appointed students: Select appointed students by clicking → **【Exit St.】**

3.5.6 Execute Students' e-Plus Lab5

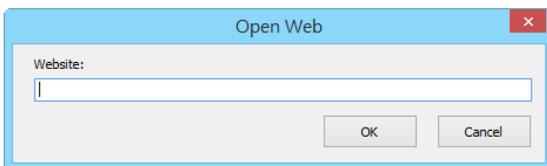

- (1) Default is to execute all students'
- (2) Appointed students: Select appointed students by clicking → **【Execute St.】**

3.5.7 Open Web

Remote open designate website on all/partial students' PC

- (1) Default is to open website at all students' PC
- (2) Appointed students: Select appointed students by clicking → **【Open Web】**

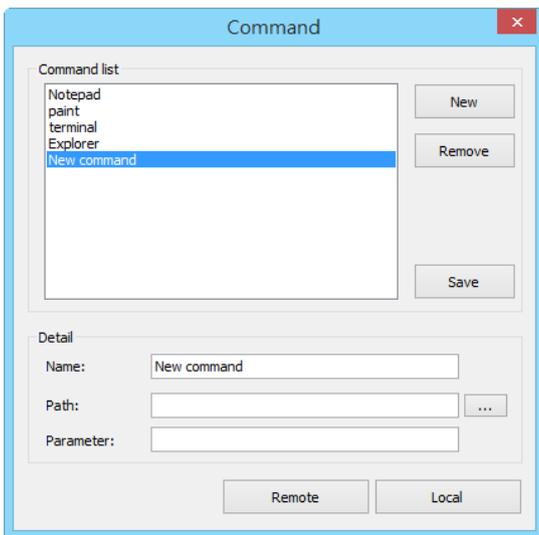

- (3) Input website → **【OK】**

3.5.8 Command

Remote open designate programs on all/partial students' PC

- (1) Click **【New】** , "New command" will appear in the command list
- (2) Click **【New command】** , name and set the path of program → **【Save】**

3.5.9 Setting

Only needs to be set once, teacher will be able to remote control all/partial students

- (1) Select student, click **【Setting】**
- (2) Teacher can set the internet, security, volume of students' PC (Only for XP system)

3.5.10 Return

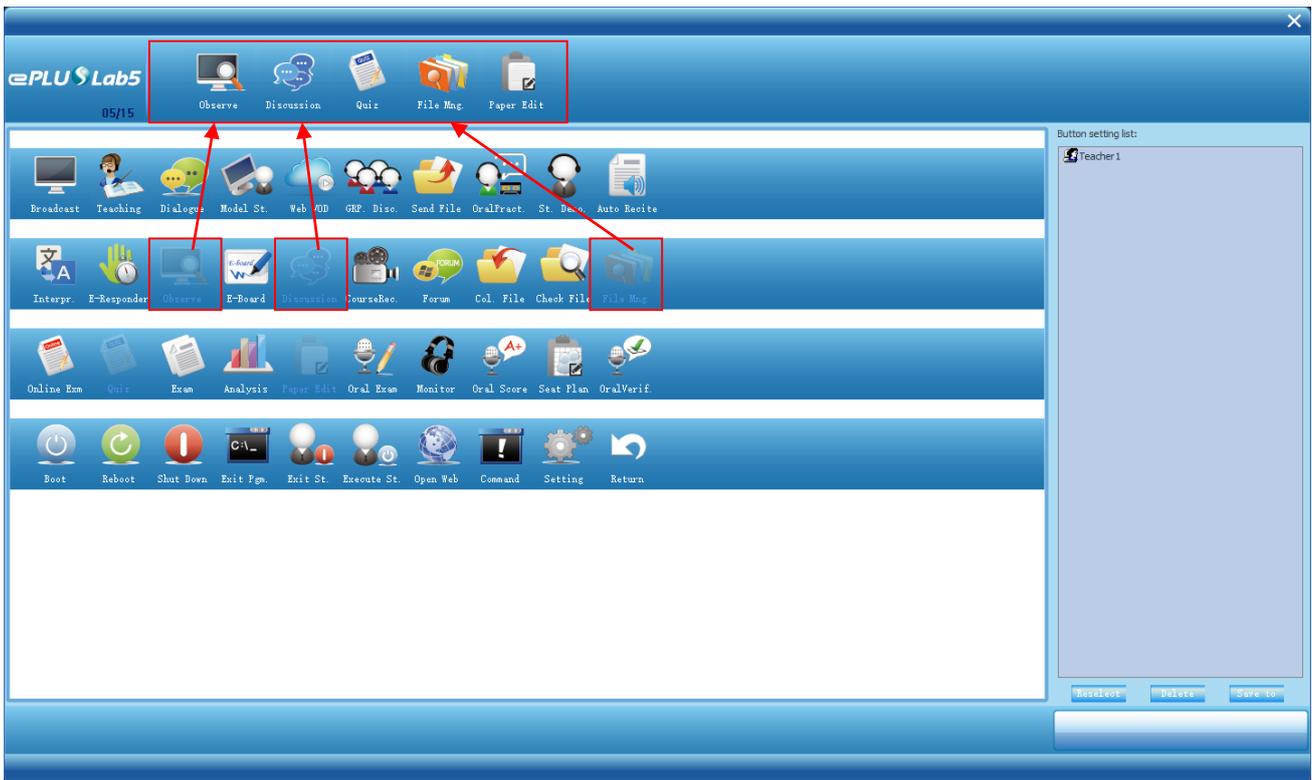

When you are running any function, click **【Return】** will return to the standby mode

3.6 Interface

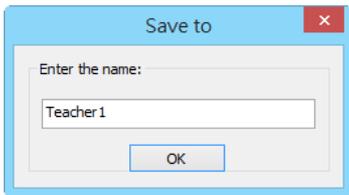

Teacher can customize function buttons, the button you use the most can be selected and create your own function bar.

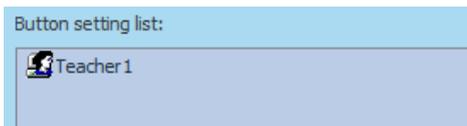

- (1) Click **【Interface】** → **【Button setting】**
- (2) Select the target button and drag to the top

(3) Click **【Save as】**

(4) Your save will on the button setting list

(5) After finish editing, click  to exit the setting

(6) You can see your edited function bar at **【Interface】** → **【--saving name--】**

3.7 Multi-channel Teaching

Teacher can load multi-media files and broadcast to all/partial students, this function has 24 channels, each channel can distribute to different students simultaneously.

	Return
	Stop/Pause
	Preview
	Select AV file
	CH1~24 Broadcast to all or partial students

Select a AV file (**File and folder name must be English**) by → The file will start to preview automatically at

teacher PC, click / to return/stop → Choose a target student → Click (CH1~CH24) to start

broadcasting (It will start on teacher side at the same time, click to return)

✓ Channel number will show on students' icon

2. Broadcast to All: Click  (CH1~24) to broadcast

✓ The video will stop playing automatically as it played once.

3.8 Hot key function

1. At the lower left of the window you can see as below:

Description:

	Roll Call
	Class Management
	Allow/block sending message
	Allow/block help call
	Clear help call

2. At the lower right of the window you can see as below:

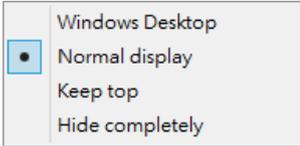

Description:

	Exit Darkening
	Darken Screen
	Allow explore Internet
	Forbid explore Internet
	Authorize student to execute program
	Block Student executing program
	Allow using USB
	Block using USB

Student windows mode

- Windows desktop: Will hide Lab5 program on student PC, the sub-function bar will on the top of the window
- Normal display: Normal mode
- Keep top: Keep student Lab5 program on the top of the window
- Hide completely: Hide student Lab5 program

3.8.1 Roll call

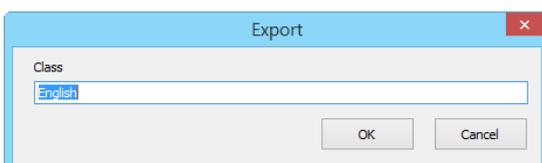

- (1) Click **Start** to start roll call → **Stop** to finish
- (2) Able to export as txt file by **Export**
- (3) Click **OK** to exit function

3.8.2 Class Management

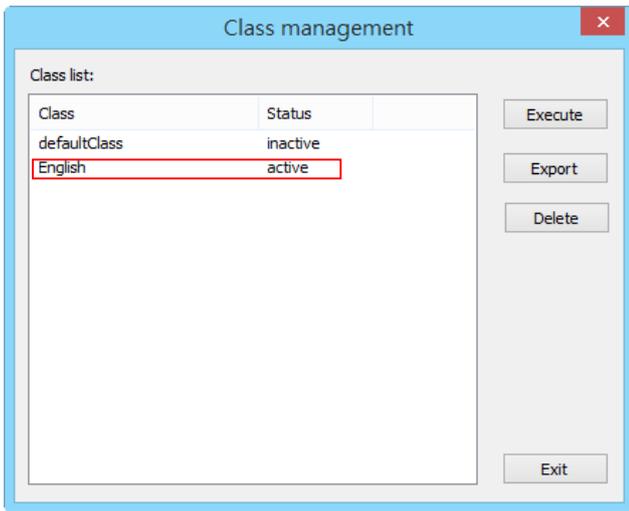

Teacher can create and save the class information

✓ Remember to **roll call first** before create the class (or the system won't save the information)

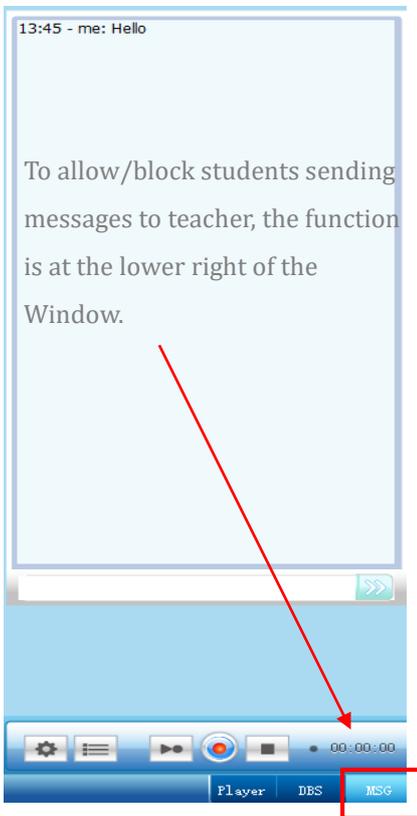

- (1) Click **Export** to create new class

- (2) Next time you can select the class you create and click **Execute** , the system will start according to the saved information, you can see the status is **active**.

3.8.3 Allow/block sending Message

3.8.4 Allow/block help call

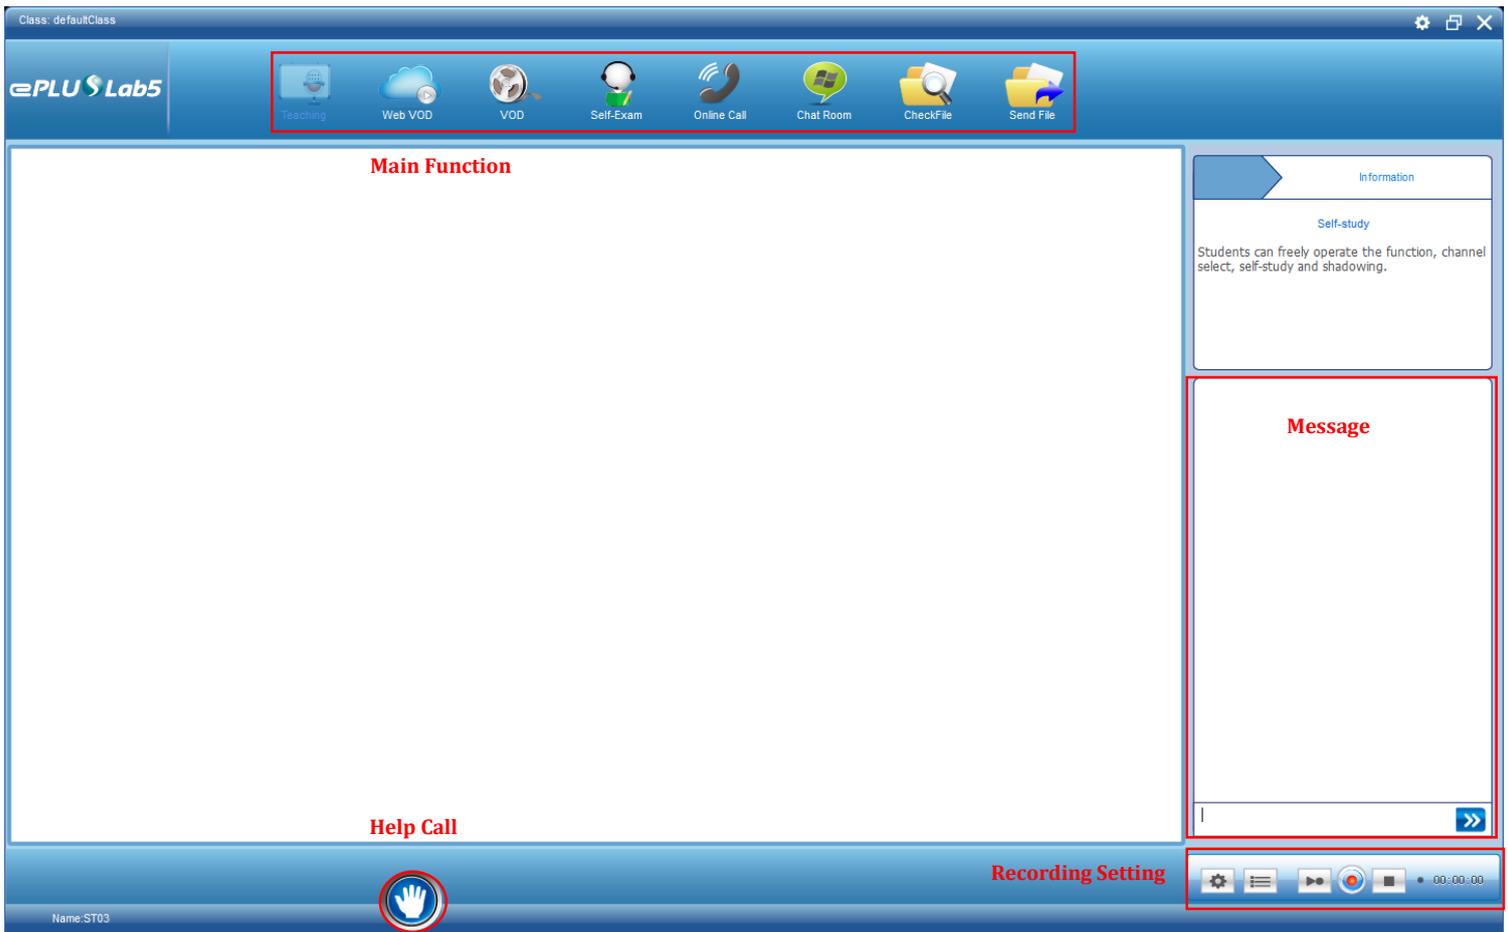

Teacher can allow/block students pressing help call when they have any questions.

3.8.5 Clear help call

Clear all the help call notification from students on layout.
