## ONESURFACE WIPES

KAF G36-1	100 PCS
KAF G36-2	150 PCS
KAF G36-3	200 PCS

- Usage Area:** OneSurface Wipes is used for rapid disinfection of non-alcoholic and non-invasive medical devices used for rapid disinfection and cleaning on medical and medical device surfaces, incubators, aerators used in dentistry and medical devices with obligatory disinfection used in ENT examinations and materials that are not resistant to alcohol.

Alcohol,  
aldehyde and  
phenol free

Ready to use

Fast and effective  
disinfection

Sporicidal  
activity in 1  
minute

## ANTISEPTIC SOLUTION

PI 4	1 L - 10%
PI 15	1 L - 7,5%

7,5%

Povidone Iodine

10%

Povidone Iodine

- **Usage Area:** It is used in hygienic and surgical hand disinfection, in the disinfection and preparation of the surgical site before the operation, in the disinfection of the skin and around the wound, in antiseptic washings.

## ANTIBACTERIAL MEDICAL SOAP

KAF G72	1 L
KAF G72-1	5 L

4%

Chlorhexidine

- **Usage Area:** Antibacterial medical soap is an antiseptic, antimicrobial skin cleanser used by medical professionals before surgical procedures and by patients before a surgical procedure. This special soap cleans the surgeon's own skin as well as their patients. It is essential that all germs are eradicated on the skin surfaces of surgeons, operating room attendants, and the patient in order to help prevent postoperative infections.

ULTRASOUND ECG GEL

Blue	Transparent	
KAF G31-4	250 ML	KAF G31-2
KAF G31-5	500 ML	KAF G31-1
KAF G31-6	1 L	KAF G31
KAF G31-7	5 L	KAF G31-3

Hypoallergenic	Oderless	Easy to Clean	Oderless

**Ultrasound Ecg Gel/Ipl Gel**

- **Usage Area:** Ensures clearer and uninterrupted transmission of ultrasonographic waves by disconnecting the air between the skin and the probe during any and all ultrasonography, doppler ECG or effort test. The active substances contained do not damage the probe thanks to the high viscosity and the vacuum technology employed for production thereof. During operation, does not become affected by the body salt, ensures comfortable ultrasonography. Recommended for use by a specialist MD.
- **Ingredients:** Deionized water, Carbomer, TriEthanol Amine, MonoPropylene Glycol, Benzyl Alcohol, Methylchloroisothiazolinone

IPL GEL

## SODIUM HYPOCHLORIC

D1

250 ML

5%

Sodium  
Hypochloric

- **Intended Use:** Eliminates soft and hard tissue residues from endodontic instruments and equipment.
- **Contents:** Sodium Hypochlorite, Distilled Water

## EDTA SOLUTION

D2

250 ml - 5%

D2-1

250 ml - 7%

D2-2

250 ml - 15%

5%

Edta  
Solution

7%

Edta  
Solution

15%

Edta  
Solution

- **Intended Use:** Cleans dental surfaces. In endodontic treatment, it is mainly used to facilitate canal instrumentation in attrition canals.
- **Contents:** Ethylene Diamine Tetra Acetic Acid, Sodium Salt, Sodium Hydroxide, Distilled Water

## ADHESIVE REMOVER SPRAY

Spray	ONCR002	50 ml
Spray	D4	100 ml
Aerosol	D5-1	100 ml
Wipes	D6	1 pcs

Hypoallergenic

Alcohol  
free

100%

100% silicone  
based

Skin friendly

It does not  
contain  
chemical gas

- Provides atraumatic application.
- It is effective in instantly removing the strongest adhesive and adhesive residues.
- It eliminates the side effects of medical adhesives on the skin.
- It is used to facilitate the painless and trauma-free removal of adhesive dressings, plasters and other adhesive products from the skin in a few seconds. It can be used safely on the skin of children, adults and the elderly. The remover is squeezed all over the product, waited for a few seconds and the adhesive is gently pulled from the skin.

## EEG PASTE

KAF G55

400 GR

KAF G56

250 GR

- The adhesive quality of OneCare EEG Paste is usually sufficient to adhere the electrodes to the skin and provide conductivity for the neurodiagnostic exam. Place the amount of paste needed on a surface such as a strip of surgical tape. Gently abrade the skin. Using a bell-shaped cup electrode with the hole in the center, place paste inside the electrode cup until it is slightly overfilled. Place the electrode onto the prepared electrode site and press with medium pressure. Use either tape or a piece of gauze to fix the electrode in place.

#### DIRECTION

Lorem ipsum is simply dummy text of the printing and typesetting industry. Lorem ipsum has been the industry's standard dummy text ever since the 1500s, when an unknown printer took a galley of type and scrambled it to make a type specimen book. It has survived not only five centuries, but also the leap into electronic typesetting, remaining essentially unchanged.

#### INGREDIENTS

It is a long established fact that a reader will be distracted by the readable content of a page when looking at its layout. The point of using Lorem ipsum is that it has a more-or-less normal distribution of letters, as opposed to using 'Content here, content here', making it look like readable English. Many desktop publishing packages and web page editors now use Lorem ipsum as their default model text, and a search for 'lorem ipsum' will uncover many web sites still in their infancy.
