

elastoDERM IV

IV cannula dressing, foil, self-adhesive, sterile

TD-18

att.no.3 pt.2 subpt.2.3

revision 2

date: 2019-06-14

amendment of: 2023-02-01

MANUFACTURER: ZARYS International Group sp. z o.o. sp.k.

ADDRESS: ul. Pod Borem 18, 41-808 Zabrze, Poland, phone +48 32 376 07 00-02,06 fax. +48 32 370 38 08

INDICATION:

- stabilization, security and fixation of intravenous cannulas

FEATURES:

- transparent, made of waterproof PU film, with non-woven pad for cannula wings and tape for description - allows observation of the dressed place without removing the dressing
- the application system – „three-stage” type
- reinforced from the inside with non-woven fabric which ensures proper cannula stabilization
- vapor permeable, ensuring proper gas exchange between the dressing and the skin, which is protected against excessive moisture accumulation and maceration
- barrier to microorganisms and bacteria minimizing the risk of infection
- very thin and elastic – adjusts to the body shape and guarantees freedom of movement
- self-adhesive - coated with acrylic glue on the entire surface
- single-use
- latex-free
- shelf life: 3 years
