

A close-up photograph of a BIOLOX delta ceramic femoral head. The head is a smooth, white, spherical component with a polished surface that reflects light. It is mounted on a dark, textured metal base, which is part of a larger joint assembly. The background is a soft, out-of-focus white.

BIOLOX[®] delta
ceramic femoral heads

BIOMET[®]
ORTHOPEDICS

LOW WEAR

- BIOLOX®*delta* heads are composed of aluminum oxide (approximately 75%), zirconium oxide, chromium oxide and other oxides¹
- BIOLOX®*delta* ceramic heads on ArComXL® polyethylene show a 56% wear reduction when compared with cobalt-chrome on ArComXL® polyethylene²

INTRAOPERATIVE FLEXIBILITY

- Can be used with all Biomet® Type I Taper hip stems
- Four neck length options

STABILITY

- Possible ROM of up to 137 degrees
- 36mm head diameter provides for decreased risk of dislocation

ORDERING INFORMATION

BIOLOX® <i>delta</i> 28mm Heads	
Part No.	Description
12-115109	-3 Neck
12-115110	Std. Neck
12-115111	+3 Neck
12-115112	+5 Neck

BIOLOX® <i>delta</i> 32mm Heads	
Part No.	Description
12-115114	-3 Neck
12-115115	Std. Neck
12-115116	+3 Neck
12-115117	+6 Neck

BIOLOX® <i>delta</i> 36mm Heads	
Part No.	Description
12-115120	-3 Neck
12-115121	Std. Neck
12-115122	+3 Neck
12-115123	+6 Neck
