ÜRÜN KATALOĞU / PRODUCT CATALOG

Zemin Kaplamaları / Floor Coverings

Çocuk Oyun Grupları / Children's Play Groups

Kent Mobilyaları / Street Furniture

Spor Saha Ekipmanları / Sports Field Equipment

Başarı Tesadüf Değildir.

Kent Mobilyaları ve Çocuk Oyun Grupları sektöründe tecrübe ve birikimimizi “Park World” markası ile sunmaktan mutluluk duyuyoruz. Ürünlerimizde, köklü medeniyetimizin estetik uygulamalarını ve mimari bakış açısını günümüz endüstriyel uygulamalarıyla sentezliyoruz.

Ürünlerimiz arasında; modern oturma grupları, saksılı dış mekan oturma grupları, antrenman istasyonları, yönlendirme panoları, kent ekipmanları, oyun ve fitness grupları, kauçuk ve dökme zemin kaplamaları, su parkları yer almaktadır.

Kent Mobilyaları ve Çocuk Oyun Sistemleri uygulamalarında güvenlik unsurunu en üst seviyede tutuyoruz. Çevreci, doğal, ergonomik, fonksiyonel içerikli ürünlerimiz ile dünya standartlarını yakalıyoruz. Ürünlerimiz, 7’den 70’e tüm halkımızın en üst seviyede faydalanabileceği şekilde dizayn edilip üretilmekte, böylelikle her kesime hitap edilmektedir.

Sahip olduğumuz kalite belgeleri ve sertifikalar ile kalitemizi ortaya koyarken, enerjik, güçlü, dinamik ekibimiz ve yeni fikirlerimiz ile güçlü projelere imza atmaya, yılların birikimi ile gelişen teknoloji , sürekli kendini yenileyen estetik ve güvenlik anlayışı ile birleştirerek, fark yaratan ürünlerimiz ile hizmet vermeye devam ediyoruz.

An illustration featuring two hands. On the left, a hand in a blue sleeve holds a yellow notepad, with a green thought bubble containing a lightning bolt nearby. On the right, a hand in an orange sleeve holds a yellow pencil. Dashed black arrows curve around the hands, pointing towards the center where the title is located.

Success is Not a Coincidence

We are pleased to present our experience and know-how in Urban Furniture and Children's Playgrounds sector with the brand "Park World". In our products, we synthesize the aesthetic applications of our deep-rooted civilization and the architectural point of view.

Among our products; Modern seating, potted outdoor group group, training stations, direction boards, outdoor aquarium groups, outdoor table tennis, urban equipment, game and fitness groups, rubber and cast floor coverings, water parks just like your place.

We keep the security element at the highest level in Urban Furniture and Children's Play Systems. We achieve world standards with our environmentally friendly, natural, ergonomic products. Our products are designed and produced in such a way that all our people from 7 to 70 can benefit from the highest level, thus appealing to every segment.

While demonstrating our quality with the quality certificates and certificates we have, we continue to sign powerful projects with our energetic, strong, dynamic team and new ideas, and we continue to serve with our products that make a difference by combining the developing technology with years of experience, the understanding of aesthetics and security that constantly renews itself.

ZEMİN KAPLAMALARI / FLOOR COVERINGS

SBR MODÜLER KAÜÇUK

SBR (Stiren Bütadien Rubber) kauçuk geri dönüşümden mamul hammadde kullanılarak üretilmiş, geniş kullanım alanına sahip olan sentetik kauçuktur. 3 farklı renk seçeneği mevcuttur. 2 cm' den 5 cm' ye kadar farklı kalınlıklardan ve farklı şekillerden seçim yapılabilmektedir.

Darbe emici ve esnek özelliği sayesinde çocuk oyun alanları, spor salonları, ahır gibi alanlarda travmatik yaralanmaların etkisini azaltabilen kullanışlı bir zemin kaplama ürünüdür. Diğer zemin kaplama malzemelerine göre daha hijyenik ve temizdir. Yağmur sayesinde temizliği kolaylıkla yapılabilmektedir. Tamiri oldukça kolaydır. Açık ve kapalı çocuk oyun alanlarında, bisiklet yolları, trafik eğitim pistleri, koşu ve yürüyüş yollarında kullanılması mümkündür.

SBR MODULAR RUBBER

SBR (Styrene Butadiene Rubber) rubber is a synthetic rubber that has a wide range of uses, produced using recycled raw materials. Available in 3 different colors. Different thicknesses and shapes can be selected from 2 cm to 5 cm.

Thanks to its shock absorbing and flexible feature, traumatic areas such as playgrounds, sports halls and stables

is a useful floor covering product that can reduce the effect of injuries. It is more hygienic and cleaner than other flooring materials. Thanks to the rain, it can be easily cleaned. It is easy to repair.

It is possible to use in indoor and outdoor playgrounds, bicycle paths, traffic training tracks, running and walking paths.

SBR With EPDM Roll Rubber Color Option

SBR DÖKME KAUÇUK SBR CAST-IN-PLACE RUBBER

SBR dökme kauçuk yürüyüş yolları, çok amaçlı spor alanları, çocuk oyun parkları gibi kapalı veya açık özel ortamlarda, daha geniş alanlarda tek parça olarak tasarım imkanı veren, yerinde uygulama şeklidir. 13, 15 , 20 , 25 , 30, 40 mm kalınlıklarda SBR dökme kauçuk yapılabilir.

SBR cast rubber walkways, multi-purpose sports areas, indoor or outdoor private environments such as children's playgrounds, on-site application that allows design as a single piece in larger areas. SBR cast rubber can be made in 13, 15, 20, 25, 30, 40 mm thickness.

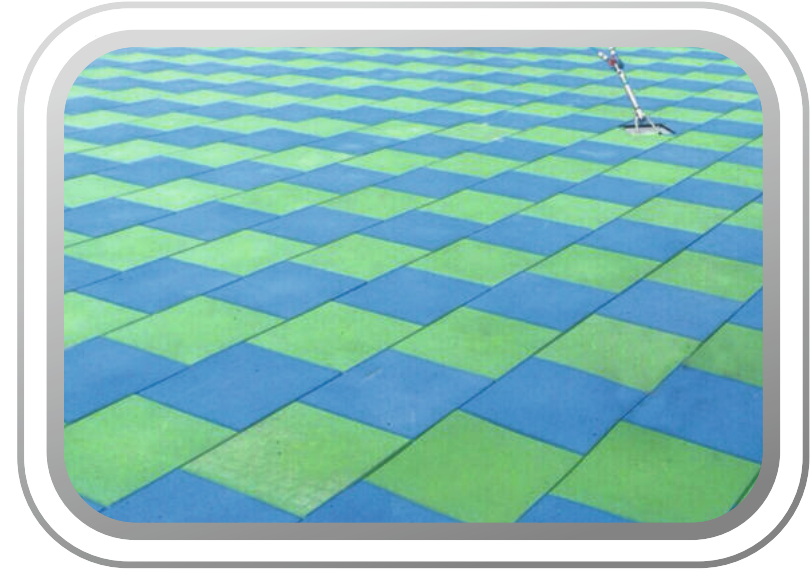

Renk Seçenekleri/Color Option

EPDM MODÜLER KAUÇUK

EPDM (Etilen Propilen Dayne Monomer) kauçuk 7 farklı renk seçeneği ile tasarımda özgünlük ve estetik görünüm imkanı verir. EPDM granüller boya kullanılmadan kendi renklerine sahip olduğu için UV ışınlarından etkilenmemektedir. Modüler kauçuk karoların üst kısmı 5 mm EPDM kaplama geri kalan kısmı SBR granüldür. İsteğe bağlı 40x40 veya 50x50 olarak üretilmektedir.

Çocuk oyun alanlarında, yürüyüş yollarında, koşu parkurlarında, spor alanlarında sıkça kullanılan ürünün sesi absorbe edici ve darbe emici özelliği vardır.

EPDM MODULAR RUBBER

EPDM (Ethylene Propylene Dayne Monomer) rubber provides originality and aesthetic appearance with 7 different color options. EPDM granules are not affected by UV rays because they have their own color without the use of paint. The upper part of the modular rubber tiles is 5 mm EPDM coating and the rest is SBR granule. It is produced as optional 40x40 or 50x50.

The product, which is frequently used in children's playgrounds, walking tracks, running tracks, and sports fields, has a sound absorbing and shock absorbing feature.

EPDM MULCH / EPDM MULCH

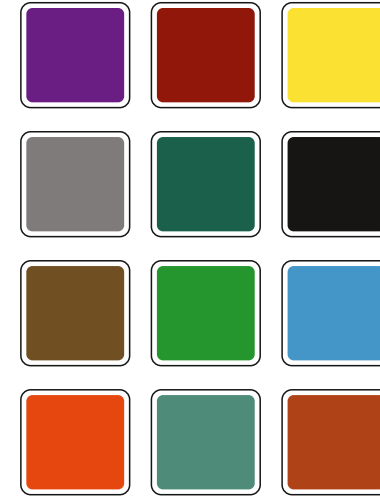

Epdm Mulch kauçuk esnek yapısı sayesinde düşme etkisini en aza indirmektedir. Doğal görünümlü yapısı ile peyzaj alanlarına uyum sağlamaktadır. Gözenekli yapısı yüzeyinde su birikintisi oluşmasını önlemektedir.

Epdm Mulch rubber minimizes the impact of falling thanks to its flexible structure. It adapts to landscape areas with its natural-looking structure. Its porous structure prevents the formation of water puddles on its surface.

EPDM DÖKME KAÜÇUK / EPDM CAST-IN-PLACE RUBBER

Renk Seçenekleri/Color Option

Epdm dökme kauçuk, sbr dökme kauçuktan farklı olarak, 18 farklı renk seçeneği ile özgün tasarım ve estetik görünüm imkanı sunar. Epdm kauçuklar orijinal renkli olduğundan renklerde solma olmaz. Granüllerin çapı 1-3,5 mm'dir.

EPDM Rubber: synthetic rubber with large heat intervals and resistance against shocks, wearing and UV. It is elastic and offers top properties. We are offering 18 different color options for EPDM products. Granules' diameters are 1-3,5 mm.

3D KAÜÇUK DÜNYASI/3D RUBBER WORLD

Çocukların ilgisini çeken çizgi kahramanların çocuk oyun alanlarında yapılan üç boyutlu uygulamalarıdır. Çocukları eğlendirmeyi ve hayal dünyalarını geliştirmeyi amaçlayan, üzerine çıkıp oynayabilecekleri büyüklükte hazırlanan kauçuk oyuncaklarıdır.

These are the 3d applications on the playgrounds of the cartoons heroes preferred by the children. They are permanent toys with sizes enabling the children to climb and play on them, aiming to entertain and develop the imaginary world of the children.

AKRİLİK ZEMİN KAPLAMALARI

Su bazlı akrilik reçine ve muhtelif sentetiklerle güçlendirilmiş, spor sahaları için özel olarak tasarlanmış,estetik ve ekonomik zemin kaplama malzemesidir.Yüksek tutuculuk oranı, nem toleransı, esnekliği,aşınma ve UV dayanımı nedeniyle tenis kortları, her türlü spor sahaları, yürüyüş ve bisiklet yollarında tercih edilir. Akrilik zeminler esnekliklerini, alt katmanlarında kullanılan cushion tabakası veya rulo kauçuktan alırlar.

ACRYLIC COURTS AND FIELDS

It is an aesthetic and economic flooring designed specifically for sport courts and reinforced with water based acrylic resin and miscellaneous synthetics. It is an option highly preferred for tennis courts. every type of sport courts, jogging and cycling tracks due to its high retention properties, moisture tolerance. flexibility, wearing and UV resistance. The flexibilities of acrylic grounds come from cushion layer or roll rubber used in the lower layers.

DOĞAL AGREGA ZEMİN KAPLAMA

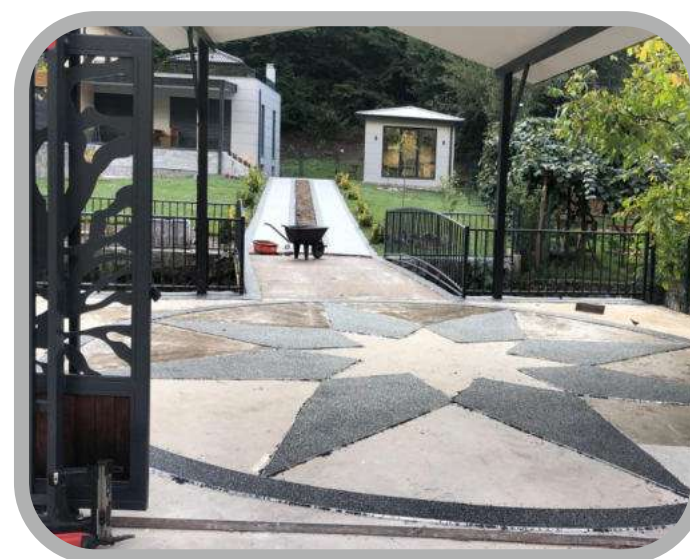

Beton zemine uygulaması yapılan Stone Carpet son zamanların en çok tercih edilen zemin kaplamalarındandır. 2/4 mm kalibre edilmiş agrega taşı uv ışınlarına maruz kaldığında renk değişimine uğramaz ve hava koşullarına karşı yüksek dayanıklılık gösterir. Stone carpet uygulaması ile bahçenize, yürüyüş yollarınıza ve oyun alanlarınıza şıklık katabilirsiniz.

NATURAL AGGREGATE FLOORING

Stone Carpet, which is applied to concrete floors, is one of the most preferred floor coverings of recent times. 2/4 mm calibrated aggregate stone does not change color when exposed to UV rays and has high resistance to weather conditions.

EPOKSİ ZEMİN KAPLAMA

Kimyasal dayanımları ile ilgili olarak bilinen diğer sistemlerden çok dayanıklıdır. Alkali ortamlara, seyreltik asitlere, hayvansal ve mineral yağlara, tuzlu su, atık sular, petrol, benzin, jet yakıtı, alkol vb. kimyasallara mükemmel dayanım göstermektedir.

EPOXY FLOORING

It is very durable than other systems known in terms of chemical resistance. It is used in alkaline environments, dilute acids, animal and mineral oils, salt water, wastewater, petroleum, gasoline, jet fuel, alcohol, etc. It shows excellent resistance to chemicals.

POLİÜRETAN ZEMİN KAPLAMA

Orta-ağır mekanik ve kimyasal etkilere maruz kalan zeminler için kullanılan, düzgün yüzeyli, çatlak örtme yeteneğine sahip, yarı esnek, temizlemesi kolay, hijyenik, poliüretan esaslı self leveling, mat veya parlak yüzeyli zemin kaplama sistemidir.

POLYURETHANE FLOORING

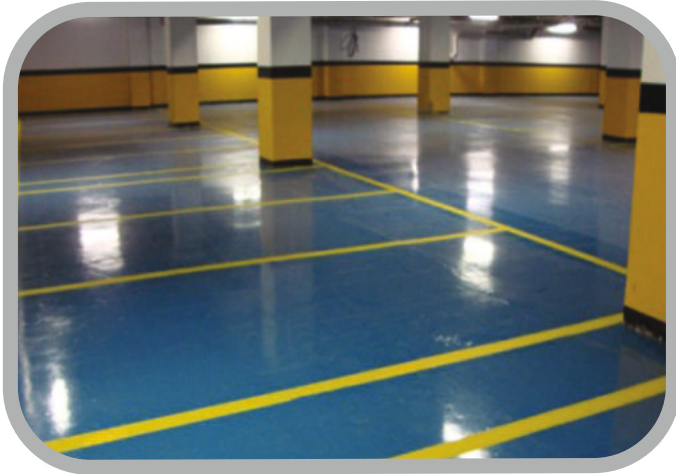

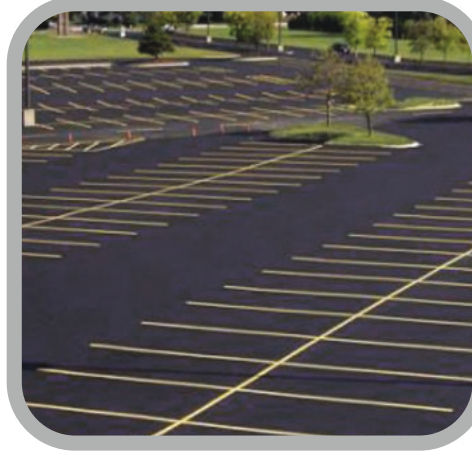

It is a semi-flexible, easy-to-clean, hygienic, polyurethane-based self-leveling, matte or glossy surface floor coating system used for floors exposed to medium-heavy mechanical and chemical effects.

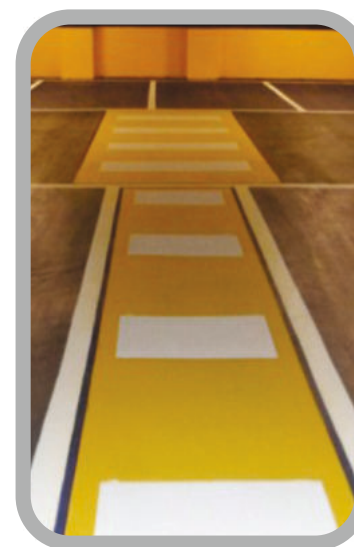

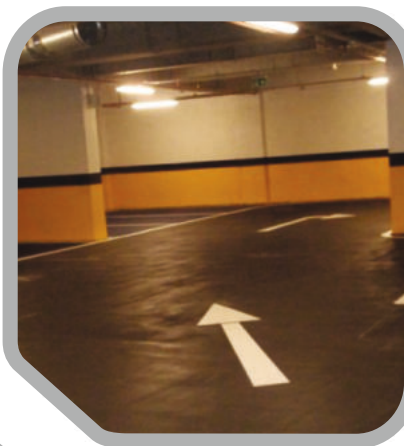

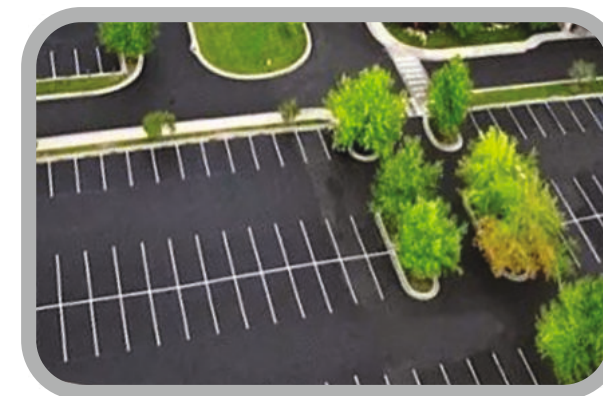

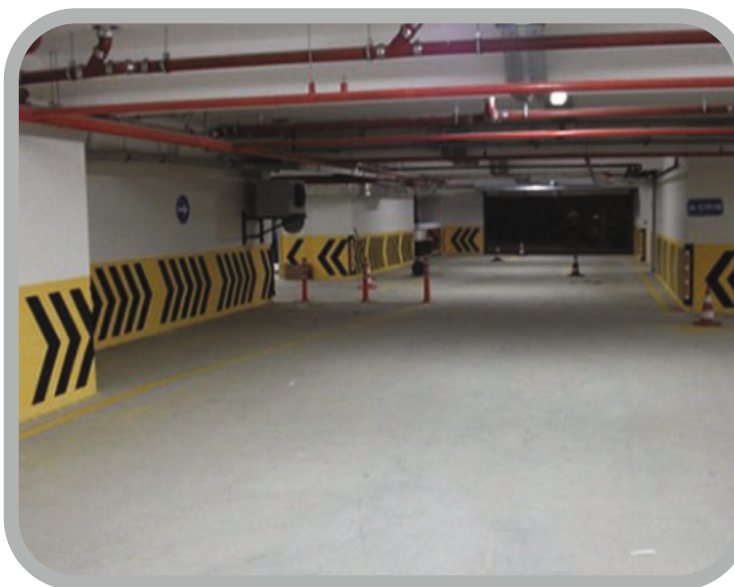

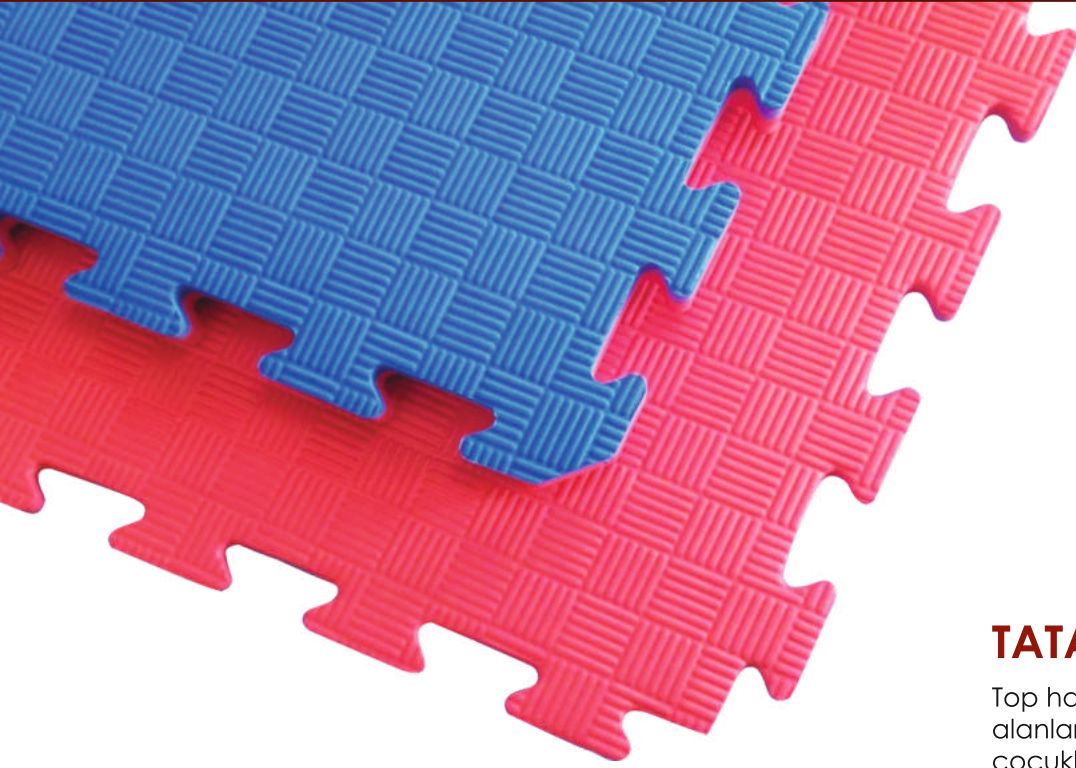

OTOPARK YAPIMI / PARKING CONSTRUCTION

Kapalı ve açık otopark alanları için renkli yada klasik asfaltlar; alışveriş merkezlerine, otellere, sitelere, fabrikalara, rezidanslara ve plazalara uygulanmaktadır.

Colored or classic asphalt for indoor and outdoor parking areas; It is applied to shopping malls, hotels, sites, factories, residences and plazas.

TATAMI MİNDER

Top havuzlarında, anaokulu oyun alanlarında, spor salonu zeminlerinde ve çocuk odası gibi alanlarda güvenle kullanabileceğiniz ürünlerdir. Yumuşak olması sayesinde düşme anında çocukların zarar görmesini engeller. Eğitim amaçlı kullanabileceğiniz harf ve sayı baskılı yer minderleri modellerimizde mevcuttur. Yeşil, mavi, turuncu, gri, siyah, kırmızı, lacivert ve sarı renklerde tatami minderlerimiz mevcuttur.

TATAMI CUSHION

Ball pools, kindergarten playgrounds, gym floors and children's room, such as products you can safely use. Thanks to its softness, it prevents damage to children during falling. There are letters and numbers printed floor mats available for educational purposes. We have tatami cushions in green, blue, orange, gray, black, red, dark blue and yellow colors.

KAUÇUK ZEMİN YAPIŞTIRICISI

Çocuk oyun alanlarında, profesyonel amaçlı kullanılan kauçuk zeminlerde kauçuk zemin bloklarının birleştirilmesinde kullanılan, Poliüretan bazlı, solventsiz, çift bileşenli, kıvamlı veya kendiliğinden yayılabilen özellikte çok amaçlı yapıştırıcıdır. Yüksek yapıştırma gücüne sahiptir. Suya, neme, ısıya dayanıklıdır.

RUBBER FLOOR ADHESIVE

It is a polyurethane-based, solvent-free, two-component, viscous or self-spreading multi-purpose adhesive used for joining rubber floor blocks in children's playgrounds, rubber floors used for professional purposes. It has high adhesion strength. It is resistant to water, moisture and heat.

KAUÇUK GRANÜL BAĞLAYICISI

Tek komponentli nem ile kürleşebilen poliüretan bazlı bir bağlayıcıdır. Granüllerin yüksek verimle birbirine bağlanması için kullanılmaktadır. SBR veya EPDM granülleri %20 oranında binder ile karıştırılıp uygulama yapılmaktadır. Kürleşme süresi yaklaşık 15 saattir. Her 10 kg epdm granül yada sbr granül için 2 kg binder kullanılmalıdır. Ayrıca, yapıştırıcı ve izolasyon amaçlı astar olarak kullanılabilir.

RUBBER GRANULE BINDER

One-component polyurethane that can cure with moisture is a word. High efficiency of granules It is used for binding. SBR or EPDM mixing granules with 20% binder and applying is done. Curing time is approximately 15 hours. For 10 kg epdm granule or sbr granule 2 kg binder should be used. Also, for adhesive and insulation purposes It can also be used as a primer.

ASFALT BOYASI

Renkli ve desenli asfaltlarda kullanılan özel bir boyadır. Özel içeriği sayesinde asfaltları renklendirmede ve asfaltların dayanıklılık kazanmasında kullanılır. Asfalt Boyası, kolay kullanımı, dayanıklılığı, estetik görünümü, hızlı kuruma özelliği ve kimyasallara karşı yüksek direnci ile rahatlıkla her yerde uygulanabilir. Asfalt boya uygulamaları "asfalt yüzey, beton yüzey ya da epoksi yüzeylerin üzerine" yapılabilir.

ASPHALT PAINT

Asphalt paint is a special paint used in colored and patterned asphalts. Thanks to its special content, it is used in coloring asphalts and gaining durability of asphalts. Asphalt Paint can be easily applied anywhere with its easy use, durability, aesthetic appearance, fast drying feature and high resistance to chemicals. Asphalt paint applications can be done on "asphalt surface, concrete surface or epoxy surfaces".

PARKUR SERİSİ / TRACK SERIES

A wooden climbing frame consisting of four vertical posts and two horizontal bars. The posts are light-colored wood, and the horizontal bars are a darker wood. The frame is designed for children to climb on.

PMS-201

PMS-202

A wooden suspension bridge toy. It features a green metal frame with two vertical posts and a horizontal bar. A series of yellow and green stepping stones are suspended from the bar by black ropes. The bridge is supported by four green plastic feet.

PMS-203

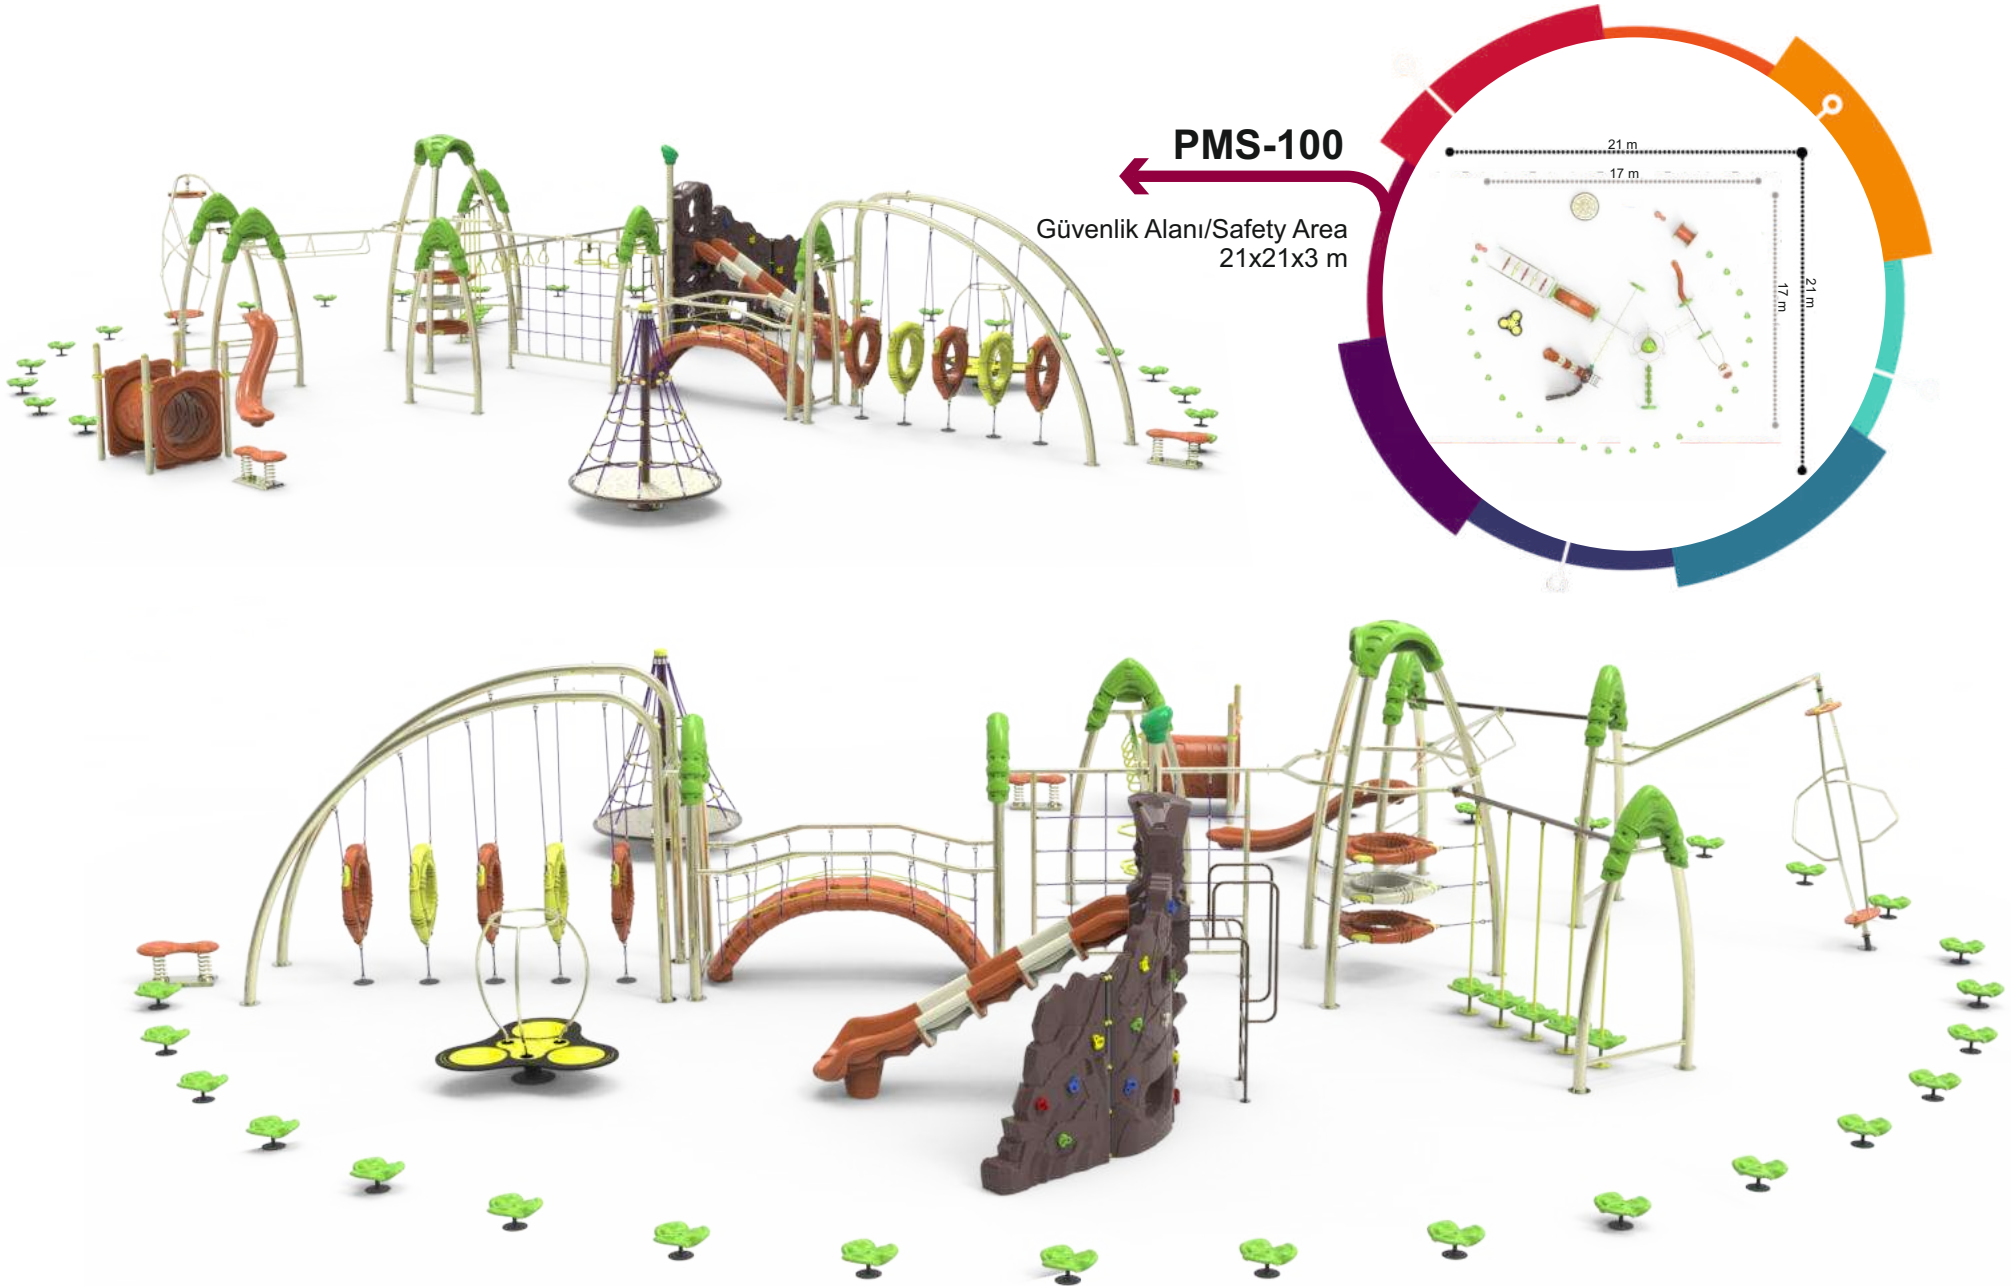

A wooden climbing frame with a net and green handrails. The frame is made of light-colored wood and has four green triangular bases. A black net is stretched across the frame, and two green handrails are attached to the sides.

PMS-204

A geometric structure made of sticks and string, resembling a complex knot or a 3D graph. It features several vertical sticks (some green, some white) connected by a network of black string, forming a series of interconnected triangles and quadrilaterals. The structure is set against a white background.
