COFRA®

POLICE/MILITARY EQUIPMENT

Products / Footwear / PROPELLER / RISE BLACK

RISE BLACK

UPPER: TECHSHELL, innovative and extremely sturdy fabric, abrasion and tear resistant, water repellent and breathable

EXTERNAL LINING: breathable textile

INTERNAL LINING: TEXELLE 100% polyamide fabric, breathable, it absorbs and releases the moisture, abrasion resistant

FOOTBED: EVANIT, made of EVA and nitrile special compound, with high bearing capacity and variable thickness (12mm - 8mm - 3,8mm). Thermoformed, anatomic, punched and coated with highly breathable fabric. Antistatic thanks to a specific treatment on the surface and to seams made of conductive yarns

SOLE: PROPELLER polyurethane/TPU

WIDTH: 10,5 Mondopoint

WEIGHT: 335 g

SIZES - US: 6-12

SIZES: 40-46 (EU), 5-11 (UK)

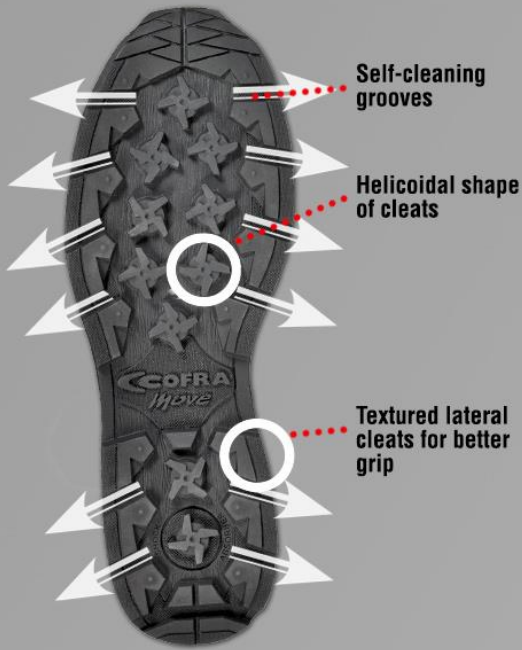

TECHNOLOGIES AND MATERIALS

ARCH SUPPORT

PROPELLER

POLYURETHANE / TPU

Resistance, lightness and grip. The polyurethane midsole absorbs energy during walking and provides the right flexibility also on uneven grounds. The TPU outsole makes the sole very resistant against contact wear, above all in harsh environments. The helicoidal shape of the cleats allows to harpoon the various grounds at 360°, increasing grip level. Excellent slip resistance.

ARCH SUPPORT

Support made of polycarbonate and fibreglass conveniently placed between heel and sole, which provides support and protection of the plantar arch, thus preventing harmful bendings.

EVANIT
supercomfort

Techshell

Techshell, sturdy, water repellent and breathable. It is made of yarns having a very high level of abrasion resistance. The yarns are directly woven in the fabric to grant high tenacity and high performances as regards rubbing resistance.

tensile strength > 60 N	233
abrasion resistance	> 600.000 cycles
