Water Dispenser 120 Glasses

* The device features a special control system that prevents resistance damage when operated without water. It automatically shuts off when the water level drops below a predetermined level and reactivates when the water temperature drops to a certain level. * The body and brewing group are made of stainless steel. * Level indicators allow you to monitor the amount of tea and water remaining in the device. * Easy-to-use push-button taps allow you to adjust the tea brewing temperature to your liking. * The adjustable automatic temperature thermostat ensures the water inside the device boils and maintains the desired temperature. * Signal lights indicate the device's operating status.

* Nominal Current: 7.7

* Limit Thermostat: 130 °C

* Temperature Control Thermostat: 30-120 °C
