Founded in 1995, MITRA is a Medical Devices Manufacturing Company. Since inception, we have emerged as a leading manufacturer of Medical Devices in India, while exporting our products to the rest of the world.

About Us

MITRA is a reputed and established name in the Healthcare Industry in India involved in manufacturing and marketing of healthcare devices with several product patents in our name.

We believe that constant innovation is the only way forward. Our state-of-art Research & Development (R&D) department designs and develops next generation products and devices with sustainable technologies based upon customer feedback and needs to enable healthcare professionals provide high quality lifecare.

Our strong focus in R & D has made us the world leaders in FIBRELESS ILLUMINATION LED-AT-TIP technology which puts an end to light-guide glass fibres in video endoscopes. With focus on quality and speed to market, we aim to exceed market expectations for performance and value. Our manufacturing processes adhere to the global and GMP standards.

Mitra at its state-of-art facilities, manufactures/develops:

- Peritoneal Dialysis Systems.
- Leukocyte Filters, Blood Collection Bags, Blood Bank Equipment.
- Flexible Video Endoscopy Systems & Ancillaries.
- Self Expandable Metal Stents for GI & Chest Medicine
- Endoscopy Accessories
- EndoClinic Medical Image and Records Management System

Our strong sales & service presence with offices & service points across the country offer quality and time bound services to all our customers. Our Clinical Team network is spread across the country to give timely support to patients on Mitra Peritoneal Dialysis Therapy.

Our high-quality products are available globally in many countries.

Our Values

Vision

To enable Lifecare through sustainable Technologies.

Mission

To answer customer needs and practice high degree of corporate governance.

Culture

Trust, Transparency, Collaboration

www.mitraindustries.com

Nitin Mahajan

MD

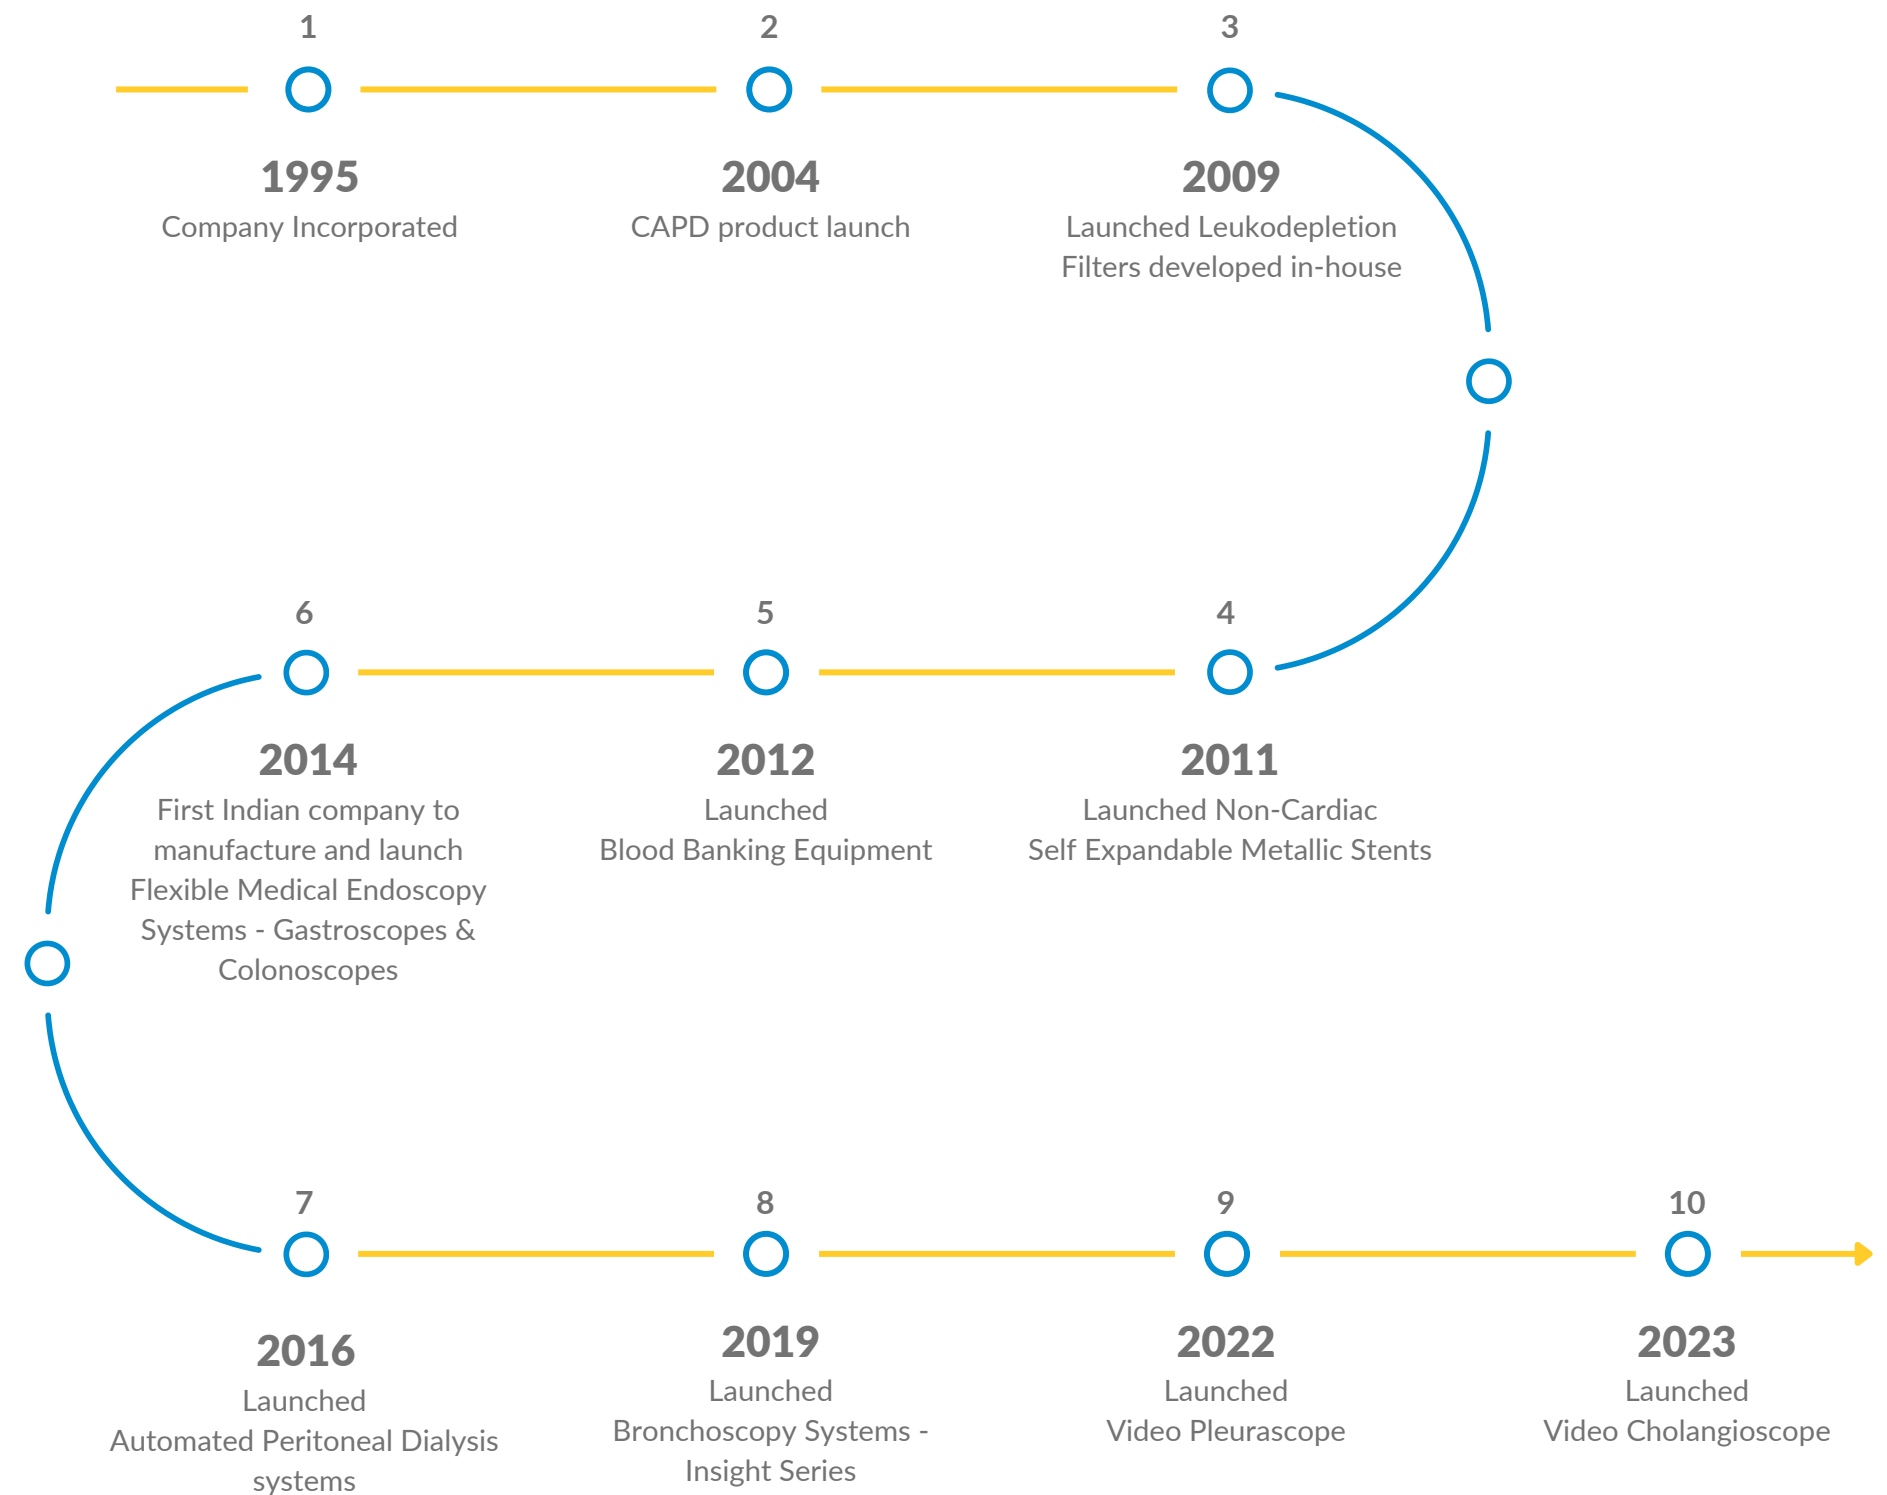

Our guiding philosophy is to Keep it Simple and constantly innovate to satisfy customer needs.

The goal is to make high quality lifecare products & services available to healthcare professionals and society at affordable cost.

Along with providing employment to a large number of people, we are also developing resources and technology in-country.

Our guiding mantra is, "Experience Peace of Mind", in using our products and services.

Services

Clinical Care Team For Peritoneal Dialysis Patients

Pan-India Network

Our nationwide clinical team network for peritoneal dialysis patients strives to provide consistent and standardised care across the country, regardless of geographical location. It facilitates timely access to support throughout their peritoneal dialysis journey. Our goal is to enable the healthcare system to deliver comprehensive, patient-centred care, improving overall patient experience and long-term health outcomes.

Our Toll Free Number is manned by experienced Clinical Care Team Members to provide guidance about Peritoneal Dialysis.

Helpline 1800 1020 307

The PD Care Helpline Centre is a dedicated effort to provide support, guidance, and education to ESKD patients and their caregivers. The Centre is the hub to address enquiries, offer assistance, and provide information about PD and various topics such as technique training, troubleshooting, PD management, and lifestyle adjustments. The helpline plays a vital role in enhancing the PD Experience by providing accessible and reliable support to patients and caregivers.
