Pricing

Nikolay Manolov

Founder of xor.ai, raised \$12+ million so far, do what I love! Author of IT hard rock songs @xor_app @rift_sequence @jam.art.official
Founder of Jam.Art Techno-Optimist
San Francisco, California, United States

Summary

Nik is a former rocket scientist turned artificial intelligence expert who built XOR's first platform and oversees product development today. He is passionate about creating a labor market where the needs of employers and people are both met more efficiently. Nik famously competed in an AI competition (and won) to convince Aida to start XOR with him. When he's not working he is seeking out new adventures with his family.
