Dear Jonathon:

Based on Salmon-Safe's technical review of the materials of composition as provided by your company, Avasol NR3 and Avasol GR3 are considered to be consistent with requirements for use at a Salmon-Safe certified operation.

When used according to the manufacturer's recommended procedures, Salmon-Safe does not have issues with either product being used at a certified site.

Please let me know if you have any questions.

Best regards,

Dan Kent
Executive Director
