

EC Certificate

mdc medical device certification GmbH

Notified Body 0483
herewith certifies that

Tekno-Medical Optik-Chirurgie GmbH
Sattlerstraße 11
78532 Tuttlingen
Germany

for the scope

sterile scalpel knives UMDNS 12-252;
shaver blades, UMDNS 17-117;
saw blades for orthopedics, UMDNS 13-447

has introduced and applies a

Quality System

for the manufacture of the products concerned and carries out a
final inspection as specified in Annex V, Section 3.

The mdc audit has proven that this quality system
meets all requirements according to

Annex V – Section 3 of the Council Directive 93/42/EEC

of 14 June 1993 concerning medical devices.

The surveillance will be held as specified in Annex V, Section 4.

Valid from	2018-07-05
Valid until	2023-07-04
Registration no.	D1043500072
Report no.	P18-00452-117481
Stuttgart	2018-06-27

EC Certificate

mdc medical device certification GmbH

Notified Body 0483
herewith grants

Tekno-Medical Optik-Chirurgie GmbH

**Sattlerstraße 11
78532 Tuttlingen
Germany**

for the scope

aneurysm clip

**(sterile and non-sterile, temporary and permanent, made of titanium and steel)
(see attachment)**

the

EC Design Examination Certificate

The examination of the design of the product by mdc has proven
that the design meets the requirements according to

Annex II – Section 4 of the Council Directive 93/42/EEC

of 14 June 1993 concerning medical devices.

This certificate is only valid in connection with a valid
mdc certificate according to Annex II – excluding section 4 for the
above mentioned products.

Supplement to the Certificate
according to 93/42/EEC, Annex II, excluding 4
Page 1 of 1

Manufacturer	Tekno-Medical Optik-Chirurgie GmbH
Certificate	No. D1043500081 Date: 2020-12-04 surgical instruments, implants for osteosynthesis, retractors, endoscopic instruments with accessories, aneurysm clips (see attachment)
Products concerned	Implants for osteosynthesis
Intended change	Removal of the products: Bone plates and bone screws of steel and titanium in the product group: Implants for osteosynthesis
Review report no.	P21-00826-228897

The intended change is in compliance with the requirements of the Directive 93/42/EEC.

This supplement is valid only in conjunction with the aforementioned Certificate.

The aforementioned Certificate is valid only in conjunction with this supplement.

This supplement is valid until:	2023-07-04
Registration no.:	D1043500085

EMDN	Intended Uses
A020299	Instrument for injecting fluids.
A070199	Adapter for connecting instruments and accessories.
L010103	Instrument for holding knife edges and razor blades.
L0102	Instrument for amputating body parts.
L0199	Instrument for cutting dressing material, hair and finger and toenails.
L030101	Instrument for extracting gases, smoke or liquids.
L031103	Instrument for introduction into natural or disease-related body cavities as part of treatments or diagnostic examinations.
L03130403	Tweezers for grasping and removing foreign bodies and splinters in the skin.
L03130499	Instrument for holding, securing or twisting wires and catheters.
L031306	Forceps for removing contraceptives or foreign bodies during gynaecological examinations and treatments.
L031307	Clamp for holding and fixing tubes, towels and surgical materials.
L031308	Tweezers are used to grasp, temporarily hold and remove different materials, tissues or vessels in different application areas.
L031399	Pliers for working with plaster casts, synthetic dressings, tapes and wires.
L0318	Instrument for holding surgical instruments or body parts.
L0399	Instrument for removing impurities from the skin.
L0409	Rectal specula for mechanically widening the anal canal for examinations and procedures.
L0509020101	Dilator to dilate the uterus.
L0509020103	Guide tube for inserting additional instruments and for irrigation.
L05090399	Instrument for holding tissue in the area of the uterus and adjacent structures
L059001	Vaginal specula for mechanically widening natural openings in the vagina for examinations and procedures.
L059003	Forceps for clamping and pulling out the area of the uterus and adjacent structures.
L059099	Bladder catheter for emptying the bladder via the urethra.
L06050199	Dilator for examining and widening the urethra or uterus.
L0606	Clamp for fixing the penis.
L0699	Bladder catheter for emptying the bladder via the urethra.
L0903	Hammer for inserting and removing other instruments during an operation.
L091101	Rod-shaped instrument for pulling out nails and wires.
L1280	Insertion aid for the resectoscopy shaft to protect the wound from injury
L140201	Dilator for widening the septum.
L140401	Dilator for widening and spreading the trachea.
L140599	Ear catheter for flushing and stretching the external auditory canals.
L149002	Instrument for holding the tongue during examination of the surrounding organs and tissues and for examination, diagnosis and visualization of the larynx.
L149003	Instrument for mechanically widening natural body openings for examinations and procedures.
L149012	Instrument for holding, grasping and manipulating foreign bodies, tissue and bone structures during ENT surgery.
L149099	Tube for inserting additional instruments and for irrigation.

L160199	Hammer for diagnostics by triggering tapping sounds or reflexes on different parts of the body.
L160201	Mirror for viewing areas that are not directly accessible.
L160202	Mirror for viewing structures in the larynx area.
L160299	Mirrors for viewing areas that are not directly accessible in the ENT area.
L1699	Instrument for the acoustic examination of organs, reflexes, hearing and nerve sensation.
L1701	Instrument for examining the eyes, manipulating eye tissue, or dilating the tear duct.
L170201	Instrument for grasping tissue, dressing material or foreign bodies during eye treatments.
L1706	Spatula as an auxiliary instrument to support ophthalmology.
M0101	Drape for storing surgical instruments during sterilization and storage.
Q010399	Dental hand instrument for working on teeth, wires, filling material and braces.
S0104	Containers for storing instruments and accessories.
S010401	Sterilization containers and sieve baskets for storing instruments and accessories during sterilization and subsequent storage.
S010402	Filter as a germ barrier in conjunction with sterilization container.
S010499	Sterilization containers and sieve baskets for storing instruments and accessories during sterilization and subsequent storage.
V0402	Bowl, vessel or cup for holding instruments, tissue pieces, liquids or bodily excretions.
V0499	Containers and accessories for the safe disposal of contaminated products during and after the procedure.
V80	Aids for non-surgical-invasive treatments.
Z12010980	Cables and adapters for transmitting electrical energy to accessories.
Z12011202	Operating table for positioning patients during examinations and procedures.
Z12020480	Fiber optic cable for transmitting light from a light source to the accessory.
Z12020480	Adapters and lenses for connection to endoscopes.
Z12021003	Hand instrument to position the tongue so that an endotracheal tube can be inserted.
Z12021005	Nasopharyngoscopes are used for visualization during procedures on the larynx and nasopharynx.
Z12021007	Instrument for visualization during interventions in the ear canals.
Z12021008	Sinusscopes / rhinoscopes are used to visualize the maxillary sinus.

EU Quality Management System Certificate

We hereby certify the company

Tekno-Medical Optik-Chirurgie GmbH
Sattlerstraße 11
78532 Tuttlingen
Germany

the introduction and application of a quality management system in accordance with Annex IX, Chapter I and III of Regulation (EU) 2017/745 for conformity assessment.

An audit by mdc has proven that this quality management system meets the following requirements:

Annex IX – Chapter I (Quality Management System)

of Regulation (EU) 2017/745 of the European Parliament and of the Council of 5 April 2017 on medical devices.

Surveillance is carried out in accordance with Annex IX, Section 3 of Regulation (EU) 2017/745.

This certificate from mdc medical device certification GmbH (Notified Body 0483) consists of 2 pages. Details about the devices covered as well as further information and conditions are contained on the following pages.

Valid from 2024-10-17
Valid until 2029-01-04

Registration No. D1043500089
Report No. P24-00873-315131

Stuttgart, 2024-10-17

Notified Body

Devices:

Self-retaining Retractors

Risk class: IIa

Access Instruments

Risk class: IIa

Optics

Risk class: IIa

Cannulas

Risk class: IIa

Holding Instruments

Risk class: I (reusable)

Cutting Instruments

Risk class: I (reusable)

Spreading and widening Instruments

Risk class: I (reusable)

Notes:

In the case of class I devices that are reusable surgical instruments the involvement of mdc is limited to the aspects relating to the reuse of the device, in particular cleaning, disinfection, sterilization, maintenance and functional testing as well as the related instructions for use.
