

VariFit™ – NIV mask

Critical Care ▪ Patient Interfaces

VariFit™ featuring AIRgel® technology

The VariFit is a single patient use hospital NIV mask featuring a cushion with AIRgel® technology for enhanced patient comfort. Colour coded elbows help the clinician to choose the correct mask for bilevel/CPAP using a single limb breathing system, or non-invasive ventilation using a dual limb breathing system. The breathable, quick release headgear is designed to fit easily to the patient and improve patient comfort.
