

3EC International a.s., Hraničná 18, 821 05 Bratislava, Slovakia
Notified Body No. 2265

EC CERTIFICATE

No. 2020-MDD/QS-107/A

issued in compliance with the Council Directive 93/42/EEC as amended,
certifies that the medical device of Class IIa,

Sterile Hypodermic Syringe for Single Use
Type: Hypodermic Syringe, Safety Syringe and Insulin Syringe
(for detailed list refer to Annex)

manufactured by company

International Company for Medical Necessities (I.CO)
Site 1: 3rd Industrial Zone Block No. 19&67, Abu-Tig, Assiut, Egypt
Site 2: Public Free Zone – Ismailia, Egypt

is manufactured under conditions fulfilling the quality system requirements of Annex V, of the Directive 93/42/EEC as amended.

The Notified Body No. 2265 has performed an audit of the above device quality system. The production quality assurance has been assessed and found that it meets the requirements above. The quality system is subject to continuous surveillance according to Annex V, Sections 3.3, and 4, of the Directive 93/42/EEC as amended. The detailed description of the system, requirements and measures applied by the manufacturer are presented in the Audit Report No. ICT_61 and the Final protocol No. 310483/2020.

This certificate is issued under the following conditions:

It applies only to the quality system maintained in the manufacture of the above referenced model of medical device and it does not substitute the design or type-examination procedures, if requested. The certificate remains valid until the manufacturing conditions or the quality system are changed but until May 26th 2024 at the latest. The certificate validity is conditional upon positive results of regular surveillance audits and fulfillment of relevant legal and other requirements by manufacturer.

ABOUT ELDAWLIA

Mr. Adel Khalial

Founder of the business
with powerful players
from the same family

Dr. Ahmed Khalial

Responsible for Supply Chain
and Logistics Management

Mr. Ibrahim Khalial

Responsible for Financial
and Administrative
Management

Mr... Mohamed Khalial

Responsible for the
Plant & Operation
Management

ELDAWLIA ICO is the pioneer manufacturer of Syringes in Africa and the middle east, established in 2004 to manufacture medical disposables started with conventional syringes passing by self-destructive then safety syringes .

In order to achieve its growth strategy ELDAWLIA started new plant for suture production in TURKEY implementing both product and geographical diversification . Operating in EGYPT and Turkey together is contributing in providing our product and services in the highest quality with the best prices.

ELDAWLIA is a Family business located in Upper Egypt (Asyut City), 350 km south of Cairo. Choice of the location has a significance . According to governmental statistics , Alzaraby " the plant location " is the poorest village in Egypt with the highest unemployment rates.

iSyringe

Conventional

Conventional syringes are available with and without an attached needle. Syringe-needle combinations feature a clear barrel with a bold scale.

Auto disable

Auto disable syringes are distinguished by the fact that they cannot be reused: following injection, the syringe is automatically blocked, thus becoming unusable.

3 ml	Ordinary Syringe	23G x 1 1/4
5 ml	Ordinary Syringe	21G x 1 1/2
10 ml	Ordinary Syringe	18G x 1 1/2
20 ml	Ordinary Syringe	18G x 1 1/2
50 ml	Ordinary Syringe	18G x 1 1/2

Other needle sizes are available

Luer slip tip

Our Luer slip tip provides a frictionfit connection that requires you to push and twist the syringe tip into the needle hub.

Luer Lock tip

Our Luer-Lok tip is generally used for injections requiring a secure connection of the syringe to another device.

Eccentric luer slip tip

The eccentric Luer slip tip is generally used for venipunctures and aspiration of fluids, allowing close proximity to the skin.

Safety Syringe

Safety syringes offers single-handed activation with minimal change in technique.

Safety Needle

Safety needle is a pivoting-shield needle for efficient safety during activation. The needle is bevel oriented to the safety cover to facilitate low-angle injections.

3 ml	Ordinary Syringe	23G x 1 1/4
5 ml	Ordinary Syringe	21G x 1 1/2
10 ml	Ordinary Syringe	18G x 1 1/2
20 ml	Ordinary Syringe	18G x 1 1/2
50 ml	Ordinary Syringe	18G x 1 1/2

Other needle sizes are available

Oral Syringes

Oral syringes offer a wide range of oral syringes and accessories for oral medication administration

10 ml

Ordinary Syringe with tip oral

18G x 1 1/2

• Other Needle Sizes are available

Uni-body insulin syringe

Uni-body insulin syringe supports many clinical uses and crucially to prevent needle disengagement, medication leakage, and spray or tubing disconnect.

1 ml

Insulin Ordinary Syringe

28G x 1/2

Feeding Catheter Tip

The catheter tip is used for flushing catheters, gastrostomy tubes and other devices.

50 ml

Ordinary Syringe with tip catheter

18G x 1 1/2

COVID-19 Vaccine Syringes

We have 2 sizes of COVID-19 Vaccine Syringes 1 ml and 2 ml. Both can be supplied with 23G, 24G or 25G Needles upon your request

25 G

24 G

23 G

1 ml	Ordinary Syringe
2 ml	Ordinary Syringe

Other needle sizes are available
