

TensabARRIER® Replacement Cassette

Standard Width Webbing

Refresh your existing TensabARRIER® products with a new webbing cassette.

Features & Benefits

- Durable polyester military grade webbing with a fine weave that remains resilient for years.
- Impact resistant, sealed housing that withstands years of wear and tear.
- Fitted as standard with an anti-tamper tape end, which locks into hardwearing splines on the cassette head - preventing accidental release of the webbing barrier, reducing the risk of injury.
- Our cassettes have a unique braking system for slower webbing retraction - making them the safest cassette on the market.
- Impact resistant, sealed housing that withstands years of wear and tear.
- Create your own design or show case your brand on our custom printed webbing.
- Allows for connectivity to all competitor products.
- Tape-end is marked with the TensabARRIER® stamp of quality, for instant brand recognition.

Product Specification

- Cassette housing comes as standard in black.
- Available with any Tensator® standard (50mm) webbing options.
- Modular webbing cassette - all cassettes come as standard with our four-point anti-tamper webbing connectivity. This allows you to connect other TensabARRIER® products to the receiver splines on the cassette head.
- Other tape end options available depending on application: rubber, panic break, magnetic, one way loop, wire clip.
- Standard width replacement cassettes are offered in 2.3m and 3.65m lengths.
- Compatible with all TensabARRIER® 50mm width webbing posts and the 891 and 896 wall units.

Applications

- Update your existing TensabARRIER® with a replacement cassette.

Order Code

- CAS-STD - Replacement Cassette 2.3m
- CAS-MAX - Replacement Cassette 3.65m
