KONICA MINOLTA

DRYPRO Σ II

DRY LASER IMAGER

Giving Shape to Ideas

DRYPRO Σ II

DRYPRO ΣII is a new design in the range of Konica Minolta's Dry Laser Imagers that fits the needs of medical professionals looking for a high resolution table top printer.

The DRYPRO ΣII creates images of unrivalled sharpness, utilizing the latest precision optics from Konica Minolta to produce a 50-µm pixel pitch; the highest available resolution.

The new compact and highly efficient Laser Imager is easy to operate, offers an intuitive workflow and is available with a wide range of film sizes.

High-Quality images 50-µm

A semiconductor laser is used to produce a 50-µm pixel pitch (508 dpi), resulting in high image resolution.

Powerful image-processing algorithms are utilized to simultaneously optimize both the image smoothness as well as the text sharpness.

Diagnostic clarity is preserved and patient data is always readable, regardless of the print size.

Four film sizes and two trays

Variety of four film sizes: 14x17”, 11x14”, 10x12” and 8x10”.

The DRYPRO ΣII is equipped with two film trays so that two different film sizes can be used simultaneously.

Consistent quality

The DRYPRO ΣII density control function maintains the output density via automatic measurement. The system also automatically calibrates whenever a tray of film with a new lot-number is loaded.

User-friendly design

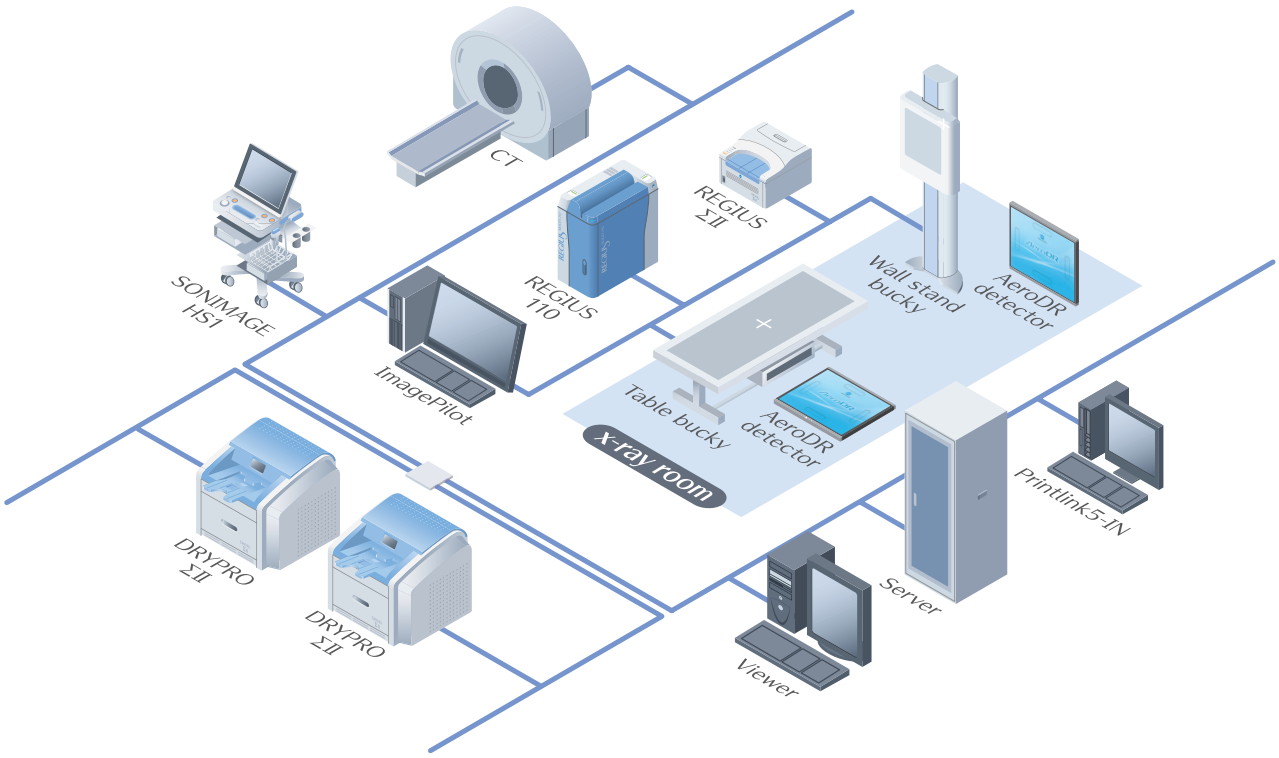
The DRYPRO ΣII is easy to operate and offers an intuitive workflow. Film exchange requires a simple cartridge insertion. The innovative cartridges allow easy film size adjustment and support various modalities such as CR, CT, Ultrasound and MRI.

Space-saving & fast

DRYPRO ΣII is a desktop printer and combines reliability and convenience with remarkable operating efficiency, all in a compact body. It features a footprint as small as 65 x 63 cm² and is designed for use in small clinics and high throughput general hospitals with a speed up to 110 sheets/hour (for 8 x 10”).

Network functions designed for open and flexible environments

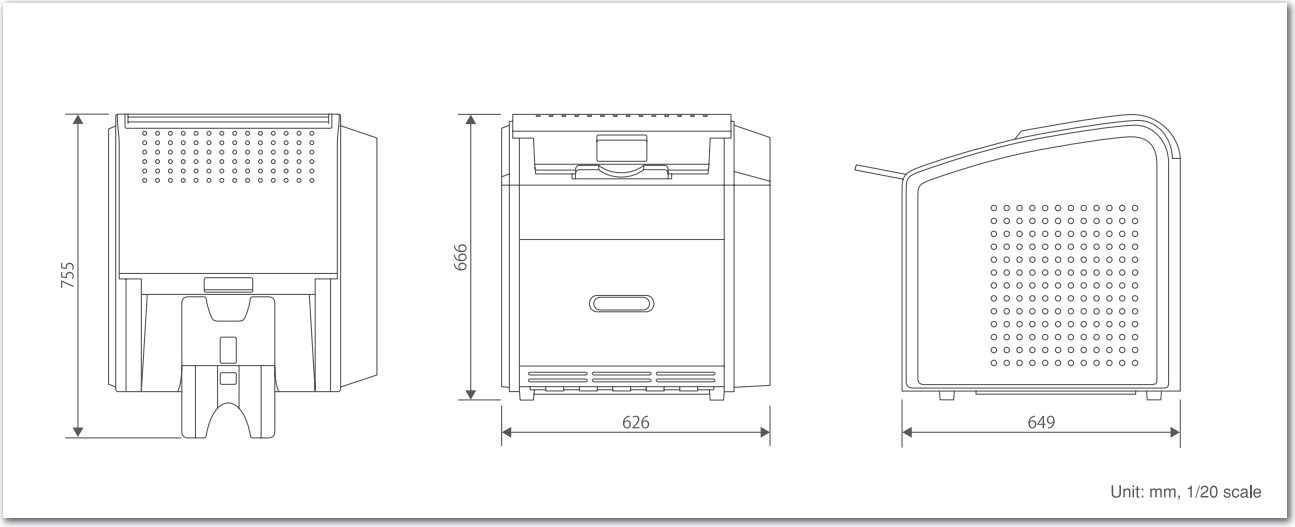
DRYPRO ΣII is a networked imager, capable of connecting directly to DICOM print compliant devices. In addition to DICOM basic grayscale print functions, the DRYPRO ΣII supports Presentation LUT, which enables printed film to more accurately match diagnostic monitors.



PRODUCT SPECIFICATIONS

- Exposure source Semiconductor Laser
- Film size 14”x17”(35x43cm), 11”x14”(28x35cm), 10”x12”(25x30cm), and 8”x10”(20x25cm) selectable
- Film Dry Imaging Recording film SD-S / 125sheets per cartridge
- Pixel size 50µm (508 dpi)
- Processing capability 14x17-inch size sheets approximately 70 sheets/hour
  8x10-inch size sheets approximately 110 sheets/hour
- Network connection Ethernet 10 BASE-T / 100BASE-T / 1000BASE-T
- Film supply Daylight setting
- Number of supply trays 2ch
- Output grades 14bit (16384 grades)
- Network connectivity DICOM Print Management SCP
- Operating condition 15-33°C 20-80% RH, non-condensing
- Power 90-130V(50/60Hz) 9A / 180-264V (50/60Hz) 4.5A
- Dimensions W:626mm x D:649mm x H:666mm
- Weight 79 kg
- Footprint 0.41m²

DIMENSIONS



Brand Name : DRYPRO Σ II
Type : LASER IMAGER
Model : DRYPRO SIGMA 2

Storing and handling unused film

Unused film should be stored in a cool, dark place (25° or below), where it will not be affected by radiation.

KONICA MINOLTA

EU DECLARATION OF CONFORMITY

Manufacturer

Name	KONICA MINOLTA, INC.
Address	1 Sakura-machi, Hino-shi, Tokyo, 191-8511, Japan
Single Registration Number	Pending

declares, sole responsibility, that the following product

Generic Device Group:	Laser Imagers
Type:	LASER IMAGER
Model (Product Name):	DRYPRO SIGMA 2
Basic UDI-DI:	4560141920000688T
Intended Purpose:	The device is intended for use in the acquisition and process of radiographic images of human anatomy. It is intended to replace radiographic film/screen system in general-purpose diagnostic procedures.
Classification:	Class I, Rule 1, according to Annex VIII of REGULATION (EU) 2017/745
Serial Number:	from A9R4-201363 to A9R4-999999 (A9R4) from A9R5-201363 to A9R5-999999 (A9R5)

referred to in this declaration conforms with the following EU law(s):

REGULATION (EU) 2017/745, confirmed by the procedure of its Annex IX,
DIRECTIVE 2014/53/EU and Directive 2011/65/EU

and conforms with the following standard(s):

EN ISO 13485:2016, EN ISO 14971:2012, EN 1041:2008,
EN ISO 15223-1:2016, EN 60601-1:2006+A1:2013, EN 60601-1-2:2015,
EN 60601-1-6:2010+A1:2015, EN 60825-1:2007, EN 62366:2008+A1:2015,
EN 62304:2006 for REGULATION (EU) 2017/745,
EN 300 330 V2.1.1 for DIRCTIVE 2014/53/EU,
EN IEC 63000:2018 for Directive 2011/65/EU

and that this declaration is valid upon approval for release of each product.
