

**Certificate of Conformity with Section XXXVI of the
Empfehlungen des Bundesinstitut für Risikobewertung
(BfR Recommendations - September 2017)**

Certificate no: 2020/5863

Product name: '100% Recycled'

Manufacturer/

Location: Viking Kağıt ve Selüloz A.Ş
Hürriyet Caddesi
35800 Aliağa, IZMIR
Turkey

Smithers

Test Reference no: 19J7209

Date of Issue: 25 February 2020

Tests carried out on the above mentioned samples have shown that they comply with the following parts of Recommendation XXXVI of the German BfR.

- German BfR Recommendation XXXVI for the level of formaldehyde.
- German BfR Recommendation XXXVI for the migration of fluorescent whitening agents (FWAs) with simulants; distilled water, olive oil, simulated saliva solution, 3% acetic acid solution.
- German BfR Recommendation XXXVI for the levels of cadmium and lead in a cold water extract of the material.

Additionally the sample has been shown to comply with the following special requirements for recycled fibres given in the Annex to Recommendation XXXVI: migration of bisphenol-A, migration of primary aromatic amines, residual 4,4'-dimethyl aminobenzophenone and 4-4' diethyl aminobenzophenone (DEAB), residual phthalates, DIPN and benzophenone, hydroxybenzophenone and 4-methyl benzophenone.

The product is therefore suitable for use in direct contact with all classes of food including hot, moist, dry and fatty foodstuffs, with the exception of use in baking applications and hot water filtration. The product can, therefore, be used safely in its intended application.
