About me

Infrastructure and DevOps engineer with 8+ years of hands-on experience operating and automating heterogeneous Windows/Linux environments. Strong foundation in virtualization, enterprise networking, and information security, complemented by production experience with container orchestration, CI/CD pipelines, and centralized security monitoring.

Comfortable working across the full infrastructure stack — from physical servers, virtualization clusters, and networking to container workloads, deployment pipelines, and SIEM-based monitoring. Focused on reliability, automation, and operationally mature, secure infrastructure.

Top Skills

Linux 7 years

Virtualization (Proxmox VE) 7 years

Information Security (Splunk / Wazuh) 7 years

Work Experience

System Administrator

Akdev · Chişinău, Moldova · 2018 – Present

Responsible for the design, operation, and automation of the company's on-premises infrastructure across a heterogeneous Windows/Linux environment, including virtualization, container workloads, networking, and security monitoring.

- Operate and maintain virtualization infrastructure on Proxmox VE and Hyper-V, covering ~20 physical servers and 40+ virtual machines.
- Run containerized workloads in production using Docker and Kubernetes.
- Build and maintain CI/CD pipelines with Jenkins and manage source code with Git.
- Implemented centralized log collection and security monitoring based on Splunk and Wazuh.
- Administer a Microsoft Active Directory environment serving ~1,400 Windows workstations.
- Manage enterprise networking and security across Fortinet, Cisco, HP, Huawei, MikroTik, and Ubiquiti equipment.
- Design and maintain backup and disaster-recovery strategies using Veeam Backup and Replication and Synology NAS.

Skills & Technologies

Containers & Orchestration: Kubernetes, Docker

CI/CD & Automation: Jenkins, Git, GitLab CI / GitHub Actions, Ansible, Bash, PowerShell, Python

Virtualization: Proxmox VE, Hyper-V

OS & Directory: Linux, Windows Server, Active Directory, Exchange, SQL, Windows PKI

Networking: FortiGate, Cisco, HP, Huawei, MikroTik, Ubiquiti

Security & Monitoring: Splunk, Wazuh, FortiAnalyzer, CheckMK, Grafana, Zabbix

Storage & Backup: Proxmox Backup Server, Veeam Backup and Replication, Synology NAS

Certifications

- Cyber Security 101 — TryHackMe (June 2025)
- MTCNA, MTCSE, MTCRE, MTCTCE — MikroTik
- Ubiquiti UNS — Ubiquiti

Education

Technical University of Moldova

Engineer, Telecommunications
