Document date – November 9<sup>th</sup> 2022

Reference – DEFRA Certificate Number 12021674

Dear Chairman

In the United Kingdom, health certificates are not issued for foods for special medical purposes as they contain products of no animal origin. Our department for food and rural affairs (DEFRA) issues Certificates of Free sale as outlined with our certificate number 12021674.

DEFRA's export certification provides the agency's official attestation concerning a product's regulatory or marketing status, based on available information at the time DEFRA issues the certificate (including, as appropriate, attestations provided by the person seeking the certificate).

The Certificate of Free sale is available only for dietary supplements, medical foods, and foods for special dietary use.

Certificates of Health are only issues on Collagen or Gelatin based products intended to be exported to the EU, which is not the product or ultimate destination on this order.

The document overleaf is signed by the secretary of state for environment, food and rural affairs whom are named DEFRA in the link: <https://www.gov.uk/government/organisations/department-for-environment-food-rural-affairs>

Yours Sincerely

Mark Kerrigan  
Company Director

# Notification of Medical Foods

## Important Notes

1. Notification of medical foods is a statutory requirement under the Medical Food (England) Regulations 2000 (SI 2000 No. 845) (as amended)
