

Experience Summary

Mr. Alexandru Stratila is an experienced Information and Communications Technology (ICT) Engineer and IT Manager with extensive experience in systems engineering, network infrastructure, and enterprise IT operations. He has a strong background in designing and implementing complex, multi-tier information systems and supporting government and high-security environments.

He has led IT operations, managed system implementations, and supported cybersecurity and compliance initiatives, including NIST SP 800-171, CMMC, and ISO 9001. His experience includes working on international projects and delivering large-scale communication and monitoring systems for government and defense-related programs.

Training and Certifications

- Bachelor's Degree in Computer Science – Technical University of Moldova
- Master's Degree in Business Administration – Technical University of Moldova
- Cisco Certified Network Associate (Cisco Academy, Chisinau)
- ISO 9001 Foundation
- Security Control NIST 800-171
- ITIL v3 Foundations
- Cambium PTP 810/820 Training
- Mini-Link Traffic Node R5 Operation & Configuration
- MX-ONE™ Telephony System I&M Training

Professional Experience

Mr. Stratila has extensive experience leading IT operations and delivering complex systems engineering projects in both government and enterprise environments. His work includes system architecture design, network infrastructure deployment, cybersecurity compliance, and management of large-scale IT systems across multiple countries. He has successfully managed teams and coordinated international projects involving communication, monitoring, and data systems.

KVG LLC, Chisinau, Moldova
Information Technology Manager
07/2021 – Present

Relevant Experience and Skills

- IT Operations Management and Systems Engineering
- Design and implementation of multi-tier information systems
- Government and defense-related ICT systems (DTRA programs)
- Network Engineering and Infrastructure (Cisco, enterprise networks)
- Virtualization and enterprise system architecture
- Cybersecurity and compliance (NIST SP 800-171, CMMC, ISO 9001)
- Cloud and identity management (Azure AD, enterprise environments)
- ERP systems and process automation
- Project management across international, multi-site environments
- Network design, monitoring, and optimization

- Managed implementation of security controls to achieve compliance with CMMC, NIST SP 800-171, DFARS, and FAR requirements
- Led implementation of ISO 9001:2015 quality management system
- Managed IT operations and controlled delivery of changes across the IT environment
- Oversaw enterprise IT systems, infrastructure, and security processes
- Supported automation of IT processes and enterprise system improvements

KVG LLC, Chisinau, Moldova

System Engineer / Senior System Engineer
12/2016 – 06/2021

- Managed multiple international projects involving communication and monitoring systems
- Designed and implemented complex ICT systems for government and defense-related programs
- Delivered systems across multiple countries including Philippines, Ukraine, and Georgia
- Coordinated teams and ensured successful project execution in multi-site environments

KVG LLC, Chisinau, Moldova

Electronics Technician / Field Network Engineer

02/2016 – 07/2016

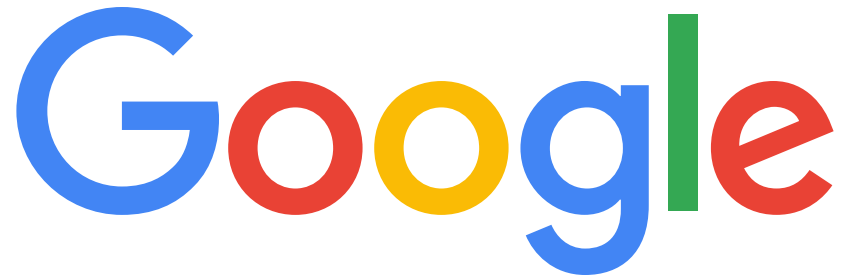

- Installed, configured, and maintained communication and surveillance systems
- Supported deployment of systems under US DoD DTRA border security program
- Prepared implementation plans and managed field deployment logistics
- Worked on remote sites supporting critical infrastructure systems

Border Police of Moldova

IT & Telecom Engineer

09/2011 – 02/2016

- Managed multiple international projects involving communication and monitoring systems
- Administered and maintained video surveillance systems (Milestone XProtect)
- Supported TETRA communication networks and telephony systems
- Managed servers and desktops across Windows, Mac, and Linux platforms
- Organized IT division workflows and supported management functions
