Health Certificate

We hereby confirm that finished products manufactured at the Nestlé Health Science (Deutschland) GmbH - Osthofen Factory have been prepared in accordance with Nestlé specifications. All ingredients and finished products are subjected to microbiological tests and are well in conformity with German and European food legislation, including European Directive on Food Hygiene and HACCP, EC No. 852/2004.

Our development, production and distribution procedures are certified according to ISO 9001/ISO 22000.

We, therefore, certify that the products listed below are safe for human consumption.
