- Silicone device fixing system that adapts to different sizes
- Elastic pen loop
- Magnetic closure

Compatibility:

- Tablet up to 11"

DESCRIPTION:

MOQ: **1K for other languages:** English, French, German, Spanish, Portuguese, Norwegian, Swedish, Danish

KEYBOARD CASE is the universal case for tablets up to 11" with integrated wireless keyboard. The internal silicone structure hugs the four corners of the device and adapts to the different sizes of the device.

Easily foldable, it becomes a practical stand for writing, watching movies and surfing the internet. The case also has an elastic loop and an internal compartment for the pen. The magnetic closure keeps the front flap closed and protects the display and pen.
