Product Code	Description
<i>One unit per box, includes balloon guide catheter and aspiration catheter</i>	
SF6131-B895	BOBBY Balloon Guide Catheter + SOFIA Plus 131cm Aspiration Catheter

INDICATIONS FOR USE: The BOBBY Balloon Guide Catheter is intended for use in facilitating the insertion and guidance of an intravascular catheter into a selected blood vessel in the peripheral and neuro vascular systems. The balloon provides temporary vascular occlusion during these and other angiographic procedures. The Balloon Guide Catheter is also intended for use as a conduit for retrieval devices.

The SOFIA Catheter is indicated for general intravascular use, including the neuro and peripheral vasculature. The SOFIA Catheter can be used to facilitate introduction of diagnostic or therapeutic agents. The SOFIA Catheter is not intended for use in coronary arteries. Moreover, the SOFIA Catheter is intended for use in the removal/ aspiration of emboli and thrombi from selected blood vessels in the arterial system, including the peripheral and neuro vasculatures.

For Healthcare Professional Intended Use Only. Please refer to IFU for the full list of risks, contraindications, warnings, and precautions.

RX Only: Federal law restricts this device to sale by or on the order of a physician.

Class III - CE0297
