

TC-C3 Compact Trolley

Compact Trolley

TC-C3

The TC-C3 Compact Trolley is designed as a compact trolley to be used in conjunction with Optera CV-170.

Compact

The compact design means the TC-C3 is ideal for use in the outpatient or doctor's office where space is limited.

Easy to Move

The Compact Trolley is easy to move and position due to its light weight and ergonomically designed handles at the front of the top tray.

Easy to Clean

The TC-C3 is easy to clean due to limited dirt traps and no exposed fittings.

Monitor Support

The TC-C3 is offered with a monitor mount that supports monitors up to 26" with unrestricted swivel and tilt movement, allowing good viewing positions of the procedure image.

Large Top Tray

The top tray provides a clear working space at a comfortable height. The increased range of accessories enables the trolley to be utilized for a range of procedures.

Integrated Separation Transformer

The TC-C3 can be supplied with a separating transformer that is placed under the base, this means increased shelf space for equipment loading.
