BOHEMI STARTIN S (MBTCI₃)

Monobutyltintrichloride (MBTCI₃)

Composition	
Appearance	Amber colour liquid
Tin content	41,0 % min
MBTCI content	99,0 % min
DBTCI content	0,3 % max
Water	0,01 % max
Chlorine	36,0 % min

Properties	<p>Forms a treatment of stannic oxide on the outer surface of the glass containers.</p> <p>The stannic oxide reduces the risk of cracking the containers. It favors the anchorage of the cold treatment.</p> <p>With Startin S the distribution of stannic oxide on the surface is more homogenous than with other stannic salts.</p>
Packaging	<p>Iron drums with an interior polythene drum for maximum safety.</p> <p>IBC non returnable.</p>
Applications	<p>It is applied with an specific hood and metering pump.</p>
Storage	<p>In hermetically sealed drums. At room temperature. Avoid contact with water or moisture.</p> <p>Do not use open drums. Clean pumps and tubes with alcohol</p> <p>In the original and tightly packed MBTCI₃ it lasts for 24 months without altering the quality.</p>
Safety	<p>May irritate and corrode skin. Do not breathe vapors.</p> <p>Always wear protective clothing that is resistant to acids.</p> <p>Consult the emergency card.</p>

Bohemi Chemicals is certified ISO 9001: 2015. Bureau Veritas certificate for chemicals and services for glass industries, catalyst and other industrial application.
