Letter of recommendation

Hereby, as the representative of USAID CEED II project, I recommend the Company Anodilia SRL as a serious, prompt and responsible partner that duly fulfills its contractual obligations, by rendering the high quality services.

These conclusions have been drawn from the cooperation for the organization in recent years of the Wine Vernissage event, where Berlizzo Events has proved to be effective, conscientious and able to complete the work on time.

The good quality of the services rendered, the way it promptly and efficiently fulfills all our requests have made us choose Berlizzo Events as a partner and recommend it to other companies for cooperation.
