Chapter 1 Product Introduction

1.1 Introduction

Body camera (hereinafter referred to as device) highly integrates with record, taping, capture, positioning, etc. It is embedded with positioning module with high sensitivity to locate the occurring position of events accurately. It can record the process and condition of events completely via record, taping, and capture.

It is widely applicable to public security protection, traffic police enforcement, fire safety inspection, city management, tobacco law enforcement, etc.

1.2 Packing List

When you receive the product, check whether there is obvious damage on the product package and its appearance first. Then open the package and check whether all the accessories are included. If something loses, contact us or our supplier.

Table 1-1 Packing List

No.	Name	Quantity
1	Body camera	1
2	Shoulder clip	1
3	USB data cable	1
4	Charger	1
5	Regulatory Compliance and Safety Information	1

1.3 Appearance

Chapter 2 Installation

2.1 Install Shoulder Clip

Install the shoulder clip if you want to wear the device on your shoulder.

Step 1 Parallel the sheet metal buckle of the shoulder clip with the shoulder clip slot on the front panel of the device, and insert the shoulder clip into the slot as the direction shown below.

Figure 2-1 Install Shoulder Clip

Step 2 Push the shoulder clip downward until it is installed firmly.

Step 3 Optional: Hold the shoulder clip, and squeeze the spring strip outward. Slide the shoulder clip upward to uninstall it.

Figure 2-2 Uninstall Shoulder Clip

2.2 Charge

When the device is in low battery, charge it in time.

Step 1 Open the USB interface plug on the side of the device.

Step 2 Connect one end of the USB data cable to the device, and the other end to the charger to charge the device.

2.3 Install Body Camera Assistant

Install Body Camera Assistant (hereinafter referred to as software) if you want to configure the device parameters, download files, etc. via the computer.

Install "BodyCameraAssistant-win32.exe" if your computer is in 32-bit operating system. Install "BodyCameraAssistant-win64.exe" if your computer is in 64-bit operating system.

Step 1 Get the installation file, and double click it.

Step 2 Select the software saving path, and click **Next**.

The software is installed in C disk by default. You can click **Browse** to change the saving path.

Step 3 Click **Next**.

Step 4 Check **Create a desktop icon** according to your needs, and click **Next**.

Step 5 Click **Install**.

Step 6 Click **Next** to install the software drive.

Step 7 Click **Finish**.

Step 8 Click **Finish** to run the software.

Chapter 3 Detailed Configuration

Scan the QR code below to get the user manual for detailed configuration.
