

elastoBAND FLEX

elastic supporting bandage, woven, non-sterile

features:

- woven
- high cotton content makes the bandage well-tolerated by skin with allergic tendency
- delicate, light, air and X-ray permeable
- adjusts perfectly to all body curves
- clip for fixing
- reusable
- white
- hypoallergenic
- non-sterile

indication:

- fixation of all types of non-adhesive dressings, especially where a non-elastic band slides
- in compression therapy to facilitate correct blood circulation
- stabilization at bone-articular system damage, e.g. dislocation, joint sprains, muscle, tendon and ligament weakening
- as sport bandage
- securing and strengthening skin surface after surgery
