Dear Customer,

Thank you for your interest in Verbatim Optical Disc products. Verbatim's optical disc product range consists of

CD Recordable and Rewritable,
DVD Recordable and Rewritable,
Blu-Ray Recordable and Rewritable,
Professional Disc

Verbatim products are manufactured to meet or exceed the highest industry standards (including ANSI/ECMA standards appropriate to the product category). In order to maintain this level of high quality manufacturing all of our products are manufactured in facilities that operate Quality Management Systems certified to be compliant with Quality Management Systems Standard ISO 9001.

Verbatim is also conscious of our responsibilities to the environment and additionally the manufacturing facilities used for production of our optical disc products operate Environmental Management Systems certified to be compliant with Environmental Management Systems Standard ISO 14001.

Unfortunately copies of individual certificates are not generally made available for inspection; however we trust that this statement provides assurance as to the Quality and Environmental Management Systems in place in our manufacturing facilities.

Ian Rainsford
Quality Manager
