UNIVERSAL SUTURES "HEALING BEYOND COMFORT"

AN ISO & CE CERTIFIED SURGICAL SUTURES AND MESH MANUFACTURING COMPANY We Manufacture complete range of Surgical Sutures, Hernia Mesh & Bonewax

## HAEMOWAX

Sterile Bonewax 2.5g.

## HAEMOWAX – Sterile Bone Wax

Bone Wax is a mixture of beeswax, paraffin, and isopropyl palmitate, a wax-softening agent. It is opaque and has a waxy odor. It's indicated for use in control of bleeding from bone surfaces during surgical procedures.

It achieves local haemeostasis of bone by acting as a mechanical (tamponade) barrier. It does not act biochemically and is non absorb-able. It is available sterile in individual foil envelopes, each containing 2.5 g and packed in an individually sealed over wraps. Surgical wax is sterilized by Gamma radiation.

Packets should be opened just prior to use to minimize the possibility of contamination and excessive drying and should be used immediately. The Surgical Wax should not be re-sterilized or subjected to excessive heat.

## **Additional Information:**

| Material                | : | Beeswax, Paraffin & Isopropyl Palmitate                               |
|-------------------------|---|-----------------------------------------------------------------------|
| Color                   | : | Opaque                                                                |
| Absorption              | : | Minimally Resorbable                                                  |
