

We, Plasti Lab S.A.R.L., based in Roumieh, Main Industrial Road, El Metn, Lebanon, confirm the technical specification of our products:

Lot nr.	Product name	Product code	Description	Picture
22	Container (collector) of fecal masses	Specimen container 30 ml (SCS-360)	1.volume: 30ml 2.with spoon 3.with label for marking 4.threaded cap	
23	Sputum container (vial tube)	Specimen container 30 ml (SCS-301)	1.volume: 30ml 2.threaded cap	
24	Sputum container (vial tube)	Specimen container 60 ml (SCP-601)	1.volume: 60ml 2.threaded cap 3. vial type	
25	Urine container (non-sterile)	Specimen container 150 ml (SCP-500 - frosted label)	1.volume: 150ml 2.with frosted label 3.with lid with maximum screwing that prevents liquids from leaking 4. Volume (marked) up to 100-120 ml	
31	Urine container (sterile) 150 ml	Specimen container 150 ml (SCP-501 – steril frosted label)	1.volume: 150ml 2.with frosted label 3. sterile 4.with lid with maximum screwing that prevents liquids from leaking 5. Volume (marked) up to 100-120 ml	
33	Polypropylene container for urine within 24 hours	Specimen container 3000 ml (SCP-300)	1. material: polypropylene for urine in 24 hours, 2. volume: 3000 ml	
38	Vacuum tube with clot accelerator + gel separator, blood volume 6-8 ml, with label	Vacurate Vacuum blood collection tubes 6 ml (VBC-600909)	1. test tube with clot accelerator + gel separator 2.volume: 6 ml 3.with label; 4. PET material	
47	Plastic test tube with gel for serum separation - 5ml with label	Vacurate Vacuum blood collection tubes 5 ml (VBC-500909)	1.plastic tube with gel for the preparation of serum 2.volume: 5 ml 3. with label	

51	K3 EDTA test tube, blood volume 2-3 ml, with lid, with label	Blood collection tubes 2,5 ml (BCS-202)	1. K3 EDTA tube 2. blood volume 2,5 ml 3. with lid 4. with label	
52	K3 EDTA test tube, blood volume 4-5 ml, with lid, with label	Blood collection tubes 5 ml (BCS-502)	1. K3 EDTA tube 2. blood volume 5 ml 3. with lid 4. with label	
56	Vacuum tube with clot accelerator + separator gel, blood volume 4-5 ml, with label	Vacurate Vacuum blood collection tubes 5 ml (VBC-500909)	1. test tube with clot accelerator + gel separator 2. volume: 5 ml 3. with label; 4. PET material	
104	Vacutainer, K3 EDTA (3,6 mg, 2ml)	Vacurate Vacuum Blood collection tube 2 ml (VBC-200502)	Vacutainer, K3 EDTA (3,6 mg, 2ml), PET	
106	Tips 0-200 mkl	Micropipette tips 5-200 mkl (MT-102)	1. volume: 5 - 200 mkl 2. correspond to Eppendorf, Hamilton and Lenppipet type pipettes	
108	Tips 100-1000 mkl	Micropipette tips 100-1000 mkl (MT-101)	1. volume: 100 - 1000 mkl 2. correspond to Eppendorf, Hamilton and Lenppipet type pipettes	
109	Tips 200-1000 mkl	Micropipette tips 100-1000 mkl (MT-101)	1. volume: 100 - 1000 mkl 2. to correspond to Eppendorf, Hamilton and Lenppipet type pipettes
