

Surgical Needles

**MEDITÜ** KFT. Needle Technology for Surgery

**IMPORTANT!**

Dear Customers!

In as much as you would like to print the catalogue and place an order by it, please make certain that you adjust the document to 100 % when printing, you can thus avoid minor discrepancies of the potential automatic settings, which can lead to improper sizes and inappropriate order.

CATALOGUE

**MEDITÚ** Surgical needles KFT. Needle Technology for Surgery

## MEDITÚ KFT. Needle Technology for Surgery

For 30 years the Meditú Kft. has been **manufacturing surgical needles** and with its decades of experience it is sure to guarantee quality to its customers. Our production facility in Makó in south-eastern Hungary offers the following range of products:

- **Surgical needles**
- **Atraumatic needles**
- **Needles for Drains**
- **Special, unique medical needles**

The success of our company is based on **paying attention to fulfilling our customers' needs** and **ensuring the highest quality**. Our needles are manufactured from **high-quality stainless steel**. We place great emphasis on following all environmental compliances during the manufacturing process as well as with our products themselves.

Meditú Ltd. exports needles to over **40 countries** throughout the world.

Our quality is ensured by fulfilling the requirements of the standards of ISO 9001:2000 and we circulate our products with CE conformity marking.

## Sales an transportation conditions

---

### **Sales an transportation conditions**

Transportation occurs with the following conditions. We also accept special requests for transportation based on prior agreement, which only refers to that particular business or business partner. The validation of the contract expires upon completion of the agreement.

### **Prices and offers**

Our prices and offers do not require engagement on our part without a written delivery agreement. For international customers, the price of delivery is always determined by the actual exchange rate at the time of the order.

**Orders:** occur when you give a model number, the type of the needle eye's formation and the amount.

### **Special manufacturing**

We accept orders in small amounts as well. When submitting the offer please present a master pattern or at least one dimensional drawing or sketch. In the case of the latter two, the placer of the order should check the manufacture peace/s. As may be easily understood we are not going to start investigation if special designs are protected in some way and therefore we decline any responsibility.

### **Catalogue types**

We reserve the right to change the construction type whenever necessary.

### **Delivery time**

We do our best to deliver precisely, and according to the stipulated time agreed upon. Partial deliveries are also accepted by prior agreement. We reserve the right to withhold delivery or retire from the contract without granting indemnity in cases of improper business behavior on behalf of our partners.

### **Dispatch**

We deliver at our expense regardless of the value of the delivered products using the most favorable packaging and transport methods.

**Claims** for faculty goods can only be accepted in writing at the latest , two weeks after arrival of delivery.

**Payment:** must be effected at the term and time agreed upon based on the amount shown on the invoice. In case of delay of paymnet, interest rates will be applied based on actual regulations. The buyer is not permitted to withhold payments or to reckon up any service.

**Property:** The delivered product- even if they have been manufactured- remain our property and can not be pledged or sold until fully paid for.

**Exportation** of our products requires our special agreement.
