610041, Sichuan, P.R. China

XCF-3000
Blood Component Separator

ORDER INFORMATION

Item Code	XCF 3000
Dimensions	720x500x638 (mm)
Power Rating	≤500VA
Voltage	220 V +/- 10% (110V, 60 Hz available)
Frequency	50Hz
Weight	42kg
Protocol Portfolio	Ask Nigale for available languages
Closed Disposable Sets	P-2000 IA/B/C/D/E/F/G

Comprehensive diagnostic system to reduce error

Adjustable flow rate and automatic process

Leak detector inside the centrifuge

Multiple apheresis program as needed

Portable, comfortable, and easy-to-read

Various languages provided

Disposable Blood Component Apheresis Set

Applications

Collection of Platelet

Machines compatible

- P-2000 IA/B/C/D/E/F/G: NGL XCF 3000
- P-2000 IA/B/D: MCS⁺

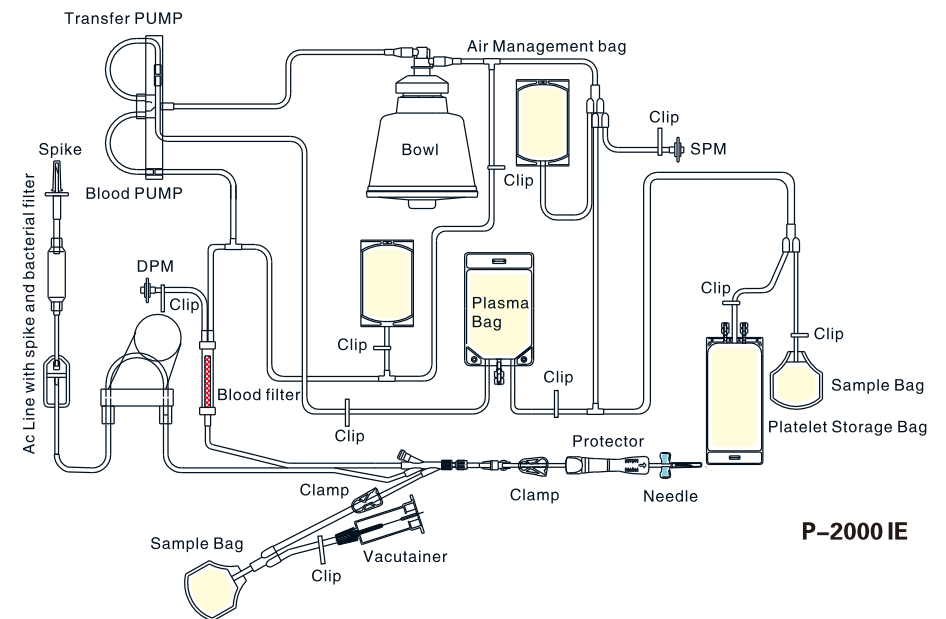

Main features and advantages

- Fully enclosed system: eliminating contamination effectively
- High quality platelet: single collection amount $> 2.5 \times 10^{11}$ and leukocyte infusion amount $< 5.0 \times 10^8$
- Cost savings: capable of harvesting two units of platelet from a single donor

ORDER INFORMATION

Item Code	P-2000 IE	ACD-A (200ml)
Package	8 Sets/Carton	50 Bags/Carton
Ctn Size	525x385x450 (mm)	380x260x220 (mm)
Weight	7.8 kg/Carton	12 kg/Carton
Shell Life	4 Years	2 Years

Disposable Platelets Solution
