ASAHI CHIKAI Family

Neurovascular GuideWire

Providing good torque response, support and durability for neuro interventional procedures

ASAHI CHIKAI family of guide wires has been originally developed based on Asahi Intecc's unique set of technologies which accomplished great success in the field of cardiovascular interventions.

Technologies with Dual-coil design using ACT ONE

Employs the ASHI brand rope coil which provides torqueability, flexibility and resiliency.
 ASHI INTECC CO., LTD.'s unique technologies in wire drawing, wire forming, torque transmission and coating are utilized to create highly responsive guide wires featuring ASAHI'S ACT ONE dual-coil design.

Key features

- Precise torque response**
 - ACT ONE provides exceptional torque response in tortuous anatomy.
- Durable tip-shape retention**
 - Incorporating with ACT ONE, re-shapable pre-shaped round curve and 90 degree angle enhance tip shape memory and durability.
- Round curve**
 - Available for CHIKAI black and CHIKAI blue
- Angled 90°**
 - Available for CHIKAI black
