Description

TP-Link | VIGI C440I (2.8mm) | 4MP IR Turret Network Camera

The VIGI C440I 4MP IR Turret Network Camera is a cutting-edge solution for your surveillance needs, offering exceptional features and clarity to keep your property secure. With its 4MP super-high definition resolution, this camera captures even the most intricate details, ensuring you don't miss a thing.

One of its standout features is the ability to distinguish between humans, vehicles, and other objects, providing you with accurate event notifications. Smart detection capabilities include boundary crossing, area entry, obstruction, and object removal/abandonment alerts, allowing you to stay informed and in control of your security.

The VIGI C440I employs H.265+ technology to transmit high-quality video without extra bandwidth requirements, saving on disk space and reducing monitoring costs while maintaining image excellence. Its flexible power supply options, supporting both 12V DC and PoE, make installation convenient and wiring hassle-free. With a 2.8mm lens for wide-angle coverage. Plus, it offers various management methods, including web UI, NVR UI, VIGI app, and VIGI Security Manager, giving you complete control over your security system. Elevate your surveillance game with the VIGI C440I for top-tier security and peace of mind.

FEATURES

- **4MP Super-High Definition:** The VIGI C440I camera comes with 4MP — more than enough pixels to pick up some of the more discrete details
- **Human & Vehicle Classification:** Distinguishes humans and vehicles from other objects, so you receive more accurate event notifications
- **Smart Detection:** Receive notifications and check feeds when someone crosses a boundary, enters an area you've set, obstructs the camera, or removes/abandons objects
- **H.265+:** Without extra bandwidth, your cameras transmit compressed crystal-clear video to save disk space, ease network loads, and reduce monitoring costs without sacrificing image quality
- **Smart Video Enhancement:** VIGI's professional technologies process videos to greatly improve the quality that is vital to your monitoring, including Smart IR, WDR, 3D DNR, and Night Vision
- **Corridor Mode:** Allows you to change the image aspect ratio from 16:9 to 9:16, and helps to monitor long and narrow areas
- **12V DC/PoE:** Two types of power supply give you more convenience and make your wiring remarkably easy
- **2.8mm Lens:** Wide-angle lens to cover enclosed spaces
- **Flexible Management:** Take full control over your security via four management methods: the web UI, NVR UI, VIGI app, and VIGI Security Manager
