# ClearGrasp Snare

# FEATURE & BENEFITS

#### (1) Built-in saline Irrigation port

• This product has the saline irrigation port. Using it, the users do not need to exchange accessories to flush the saline or water to detect the bleeding site.

#### (2) Looping rotation with the handle at 1:1 ratio

• The loop of this product can be rotated at 1:1 ratio with the handle, and the users can perform the EMR procedures more easily.

#### (3) Various shapes and sizes of loop (6mm-30mm)

- The users can select the shape and diameter of loop according to their needs.
- Cold Snare Polypectomy can be performed by using our small size snare (6-10mm)

#### (4) Cold & Hot Snare

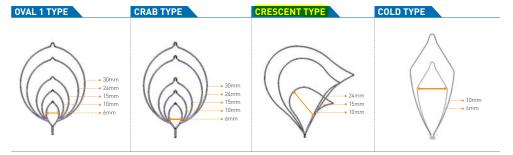

- Shield shape enables effective cold snare Polypectomy.
- · Covering both Hot and Cold Snare Polypectomy.
- 6mm loop size facilitates the resection of diminutive polyps (size≤5mm)
- Irrigation Port helps control bleeding during polypectomy.

# **Clear-CoaBite**

# (1) Built-in Saline Irrigation Port

 This product has the saline Irrigation port, This could let the users don't need to change snare to flush saline or water for detecting bleeding site.

# (2) Improving usability

 By shortening the conductive length at the distal end of sheath from 9mm to 4mm, operators do not need to focus out in order to take the angle again.
