

LB4010 Bubble Humidifier

Oxygen bubble humidifiers are used to provide humidified Oxygen to patients both in hospital or at home.
The Filter at the end of the inlet tube produces very small Bubbles or gas thus increasing the contact surface.
Providing maximum humidity picked up by the bubbles.
At the same time, the tiny bubbles produce very low noise.
Unlike larger bubbles, helping patient relax.
Bottle is supplied with the connector that enables it to be fitted To a fine bore outlet of an oxygen flow meter.
Safety valve at 4 or 6 PSI.
Single patient use.
