X-Pistol GEN2 is the new iteration of the already iconic X-Pistol RC. This is the combination of features you expect from a searchlight - now with new functionalities, improved light parameters - all to satisfy even the most discerning users. The waterproof (IPX6), robust aluminium housing that welcomes extreme conditions. The light beam has been upgraded to 1,500 lumens. Combined with the focus function, the flashlight is great for illuminating distant objects and large spaces. X-Pistol GEN2 distinctive features: a convenient, folding pistol grip, 1,500 lm and up to 10 hours of operation in flashing mode.
