PROFESSIONAL SUMMARY

LED Systems Engineer and VJ Operator with hands-on experience in the full-cycle deployment of LED screen systems for live events and permanent installations. Skilled in structural assembly, processor calibration, real-time video playback and image quality control. Works confidently with high-capacity setups in fast-paced, high-stakes environments, delivering rapid technical solutions and seamless visual output. Strong track record across state ceremonies, international broadcast events, business forums, and large-scale music festivals.
