LETTER OF RECOMMENDATION

We would like to express our appreciation for **Pascaru Production LTD**, a production company with which our organization has been collaborating consistently since 2023, and to recommend them for any future initiatives in the field of video production, particularly in the area of social projects.

Throughout our collaboration, the team at Pascaru Production has produced over 20 video materials — including social reports, video stories, interviews, and more. Each product has reflected not only high technical quality but also a strong sensitivity to the topics addressed.

The team's involvement, their ability to work empathetically with beneficiaries and communities, as well as their attention to key messages, have been essential throughout our partnership. We also highly value the flexibility, creativity, and promptness with which they have managed the entire production process.

We wholeheartedly recommend Pascaru Production to any organization looking for reliable partners in creating video content with real social impact.
