Our Ref. NO. 200003975
Date : 30th September 2024

PRE-SHIPMENT REPORT

In pursuance of an order for inspection given to us by our principal "Energy EG CO." for a shipment described as per client declaration as the following:

Description of goods : road salt for de-icing in bulk
Sampling status : spot indicative sampling from quay side.
Place of inspection : Open yard at Damietta port
Date of sampling : 27.09.2024

WE CERTIFY THAT:

Sampling:

Spot Indicative Sampling, based on Client instruction, were carried out by SGS Inspector on 27.09.2024, drawn according to ISO 11648 method, all the drawn samples were mixed thoroughly forming gross sample, which divided into sub-samples, identified, sealed, labeled then distributed as follows:

Description	Seal Number(s)	Purpose
2 sealed sample(s)	Q6940505 Q6940506	Retained by SGS Egypt for 90 days unless other client instructions
2 sealed sample(s)	Q6940507 Q6940508	Analysis at SGS lab

Analysis:

Carried out at SGS Minerals Lab for sample sealed with SGS seal # Q6940507, where the results as follows:

Element	Results %	Analysis Method
Moisture	1.56	ASTM E534/2018
Purity (as Sodium Chloride)	98.52	
Water Insoluble Matter	0.049	
SO ₄ ²⁻	0.51	
Ca ⁺⁺	0.18	
Mg ⁺⁺	0.09	
CaSO ₄	0.61	
MgCl ₂	0.28	
MgSO ₄	0.10	
Sieve Analysis:		ASTM C136/C136M/2018
+6.00 mm	0.12	
+ 4.00 mm	11.73	
+ 2.00 mm	15.49	
+ 2.00 mm	26.38	
+ 1.00 mm	34.67	
+0.600 mm	7.78	
- 0.600 mm	3.83	

Due to the inaccessibility of part of the cargo, the samples collected have indicative value only and will not necessarily be representative of the entire cargo, but only of that part accessible and sampled at the date, time, and place of inspection.

Sampling from any stationary stockpile is considered to be non-truly representative for the obvious reasons: the material is in static condition, not in movement and all the inner layers of material inside the pile are not accessible during sampling from the stockpile.

Sampling will be carried out manually at depth 40cm from the pile's surface. Samplings from stockpiles are always limited.

As a stationary stockpile limited sampling may not be truly representative of the entire cargo lot, the results of analysis may reflect the quality of the collected samples only. Therefore, the stockpile pre-loading inspection findings may be used for the indicative / informative or estimation purposes only prior to loading and none can be used for any kind of commercial final purposes or transactions.
