1				The Consultant noticed that the project “Develop the Sustainable Urban Mobility Plan for the municipality of Chisinau” (Reference code: 2021/S 156-415051) was published and has already an awarded implementation Consultant. Does the current project “Territorial approaches research regarding the development of public transport Chişinău – Republic of Moldova” has to be in line with the abovementioned? Do both Consultants have to coordinate their work on improvement of the public transportation system in Chisinau?	Both assignments have different implementation periods (6 months and 27 months, respectively) and development of SUMP will start with the current situation analysis, followed by development phases. Therefore, findings and recommendations from the Territorial approaches research will be considered by SUMP Consultant.
2				If one of the Consortium members is a Consultant for the project “Develop the Sustainable Urban Mobility Plan for the municipality of Chisinau” will you consider it as a conflict of interest?	Please see <b>2.5.4. Conflict of interest, PRAG 2019</b>
3	<i>Invitation to Tender, Service Contract Notice</i>			Could you please increase the reference period to the last four years?	Please see Corrigendum No.1. It is confirmed, the evidence of relevant services performed more than 3 years before will be taken into account but may not go beyond the past 4 years from the submission deadline.
4	<i>Invitation to Tender, Instructions to Tenderers</i>	3		We understand that the current tender has a tight timetable, however, we would be appreciated if an extension for submitting the tender documentation for at least one week could be granted.	Please see Corrigendum No.1.
