Flexible Scope

The laboratory is accredited to ISO/IEC17065:2012 to conduct product certification activities in accordance with the standards **highlighted** in the schedule. This may also include certification on the same or similar product types against standards that are not specifically listed in this Schedule, providing that:

- (1) The standard does not introduce new principles of measurement.
- (2) The method or standard does not require measurements to be made outside the parametric boundaries defined in this Schedule.

Information about flexible scopes of accreditation is available in UKAS document GEN 4
