II. Health Attestations		II.a. Certificate reference number ND.3042.38889.25-SE	II.b.
Part II: Certification	II.1 Public health attestations		
	<i>The official inspector hereby certifies that the fishery products specified above:</i>		
	<ol style="list-style-type: none"> 1. Originate from (an) establishment(s) that has been approved by or determined to be in good regulatory standing with the competent authority in the exporting country. 2. Have been caught and handled on board vessels, landed, handled and where appropriate prepared, processed, frozen and thawed hygienically in compliance with requirements of the United States. 3. Have been handled, prepared or processed, identified, stored and transported under a competent HACCP and sanitary program consistently implemented and in accordance with the requirements laid down in Codex Code of Practice for Fish and Fishery Products. 4. Were under the supervision and inspection by the competent authority in the origin country and found not to have any pathogenic bacteria or harmful substance, and are fit for human consumption and not intended for any other end users. 		
	II.2 Animal health attestations		
	<ol style="list-style-type: none"> 5. If the animals/products are from aquaculture origin, establishments have not experienced unexplained mortality events at the time of collection/harvest. 6. The animals/products originate from the United States, where listed notifiable diseases of aquatic animals are reported by the competent authority for aquatic animal health to the World Organization for Animal Health - WOAH (formerly known as the OIE) in accordance with the WOAH Aquatic Animal Health Code. 7. The animals/products in the shipment are not under any restriction for disease, and are not intended for destruction for reasons of animal disease. 8. In accordance with the WOAH Aquatic Animal Health Code, the species listed above are free from health concerns based on intended end use as human consumption.* This claim is supported by United States regulatory controls and/or biosecurity controls and/or processing controls and/or surveillance sampling and/or consignment samples found to be free from disease concerns through testing and/or risk assessment of the product. 9. The following are the WOAH listed diseases: 		
	<p><input checked="" type="checkbox"/> Finfish: Aphanomyces invadans (Epizootic ulcerative syndrome - EUS), Epizootic hematopoietic necrosis virus (EHNV), Gyrodactylus salaris, Infectious hematopoietic necrosis virus (IHNV), Infectious salmon anemia virus (ISAV), Koi herpesvirus (KHV), Red sea bream iridovirus (RSIV), Salmonid alphavirus (SAV), Spring viremia of carp virus (SVCV), Tilapia lake virus (TiLV), Viral hemorrhagic septicemia virus (VHSV)</p>		
	<p><input type="checkbox"/> Crustaceans: Acute hepatopancreatic necrosis disease (AHPND), Aphanomyces astasci (Crayfish plague), Decapod Iridescent Virus-1 (DIV1), Hepatobacter penaei (Necrotizing hepatopancreatitis - NHP), Infectious hypodermal hematopoietic necrosis virus (IHHNV), Infectious myonecrosis virus (IMNV), Machobrachium rosenbergii nodavirus (White tail disease - WTD), Taura syndrome virus (TSV), White spot syndrome virus (WSSV), Yellow head virus genotype 1 (YHV)</p>		
	<p><input type="checkbox"/> Molluscs: Abalone herpesvirus, Bonamia exitiosa, Bonamia ostreae, Martellia refringens, Perkinsus marinus, Perkinsus olseni, Xenohaliotis californiensis</p>		
	<p>*REMARKS: "Not intended for uses other than human consumption"</p>		
	II.3 Transport and labeling requirements		
<ol style="list-style-type: none"> 10. The fishery products and aquaculture animals referred to above are stored under conditions that do not alter their sanitary status; 11. The transport container or boat well is clean and disinfected prior to loading or previously unused; and 12. The consignment is identified by a legible label on the exterior of the container, or when transported in a boat well, in the ship's manifest, with the relevant information referred to in boxes I.7 to I.11 of Part I of this certificate.
