

To whom it may concern:

We RADP Cluj state that Hofstetter has made for our leachate treatment plant a trial operation and maintenance in the last months.

All needed consumables and spare parts were supplied by Hofstetter.

Our leachate treatment plant is for a treatment capacity of 100 m³/day and works on Reverse Osmosis with DT(disc tube) technology.

Hofstetter Environmental has a service and maintenance team of engineers highly skilled.

We fully recommend the services and products of Hofstetter.

Thank you.
