## 0.2 µm PES High Flux Capsule Filter

This is a 0.2 µm PES membrane filter designed for the removal of particles and microorganisms from liquids.

**RephiLe Catalog No.:** RAFFC0250

**Millipore Catalog No.:** MPGP04001,  
MPGP02001, SIMFILTER

### Description

## 0.2 µm PES High Flux Capsule Filter RAFFC0250

### Product Description:

This is a 0.2 µm PES membrane filter designed for the removal of particles and microorganisms from liquids. It features a faster flow rate and higher through-put by using hydrophilic PES membrane.

Easy to be installed and replaced. Every filter is integrity tested.
