If the product information you are seeking does not appear below, it is possible that the product holds a European licence and its information may be available at the [European Medicines Agency](#) website.

Before a medicine can be sold in the UK, a number of licences are essential. Products with a UK marketing authorisation have a licence number in the format 'PL 12345/0001', 'PLGB 12345/0002' or 'PLNI 12345/0003'. The licence number can be found on the packaging of the product and the first 2 characters are always contain the letters 'PL'.

You can identify the product in the list below using the PL, PLGB or PLNI number.

The information about a medicine will be updated when new evidence becomes available. This may mean that there are differences between the information in the pack and the information here. The most up-to-date information will be available on this site.
