O-Insights™
VMS Plugin

Overview:

The O-Insights™ VMS Plugin for Milestone XProtect provides advanced dashboarding, analytics, and reporting both within and beyond the XProtect environment. Through the XProtect Smart Client, users access customizable dashboards and streamlined reporting for detailed video management insights.

O-Insights Web further extends these capabilities to a flexible, browser-based platform, enabling remote workspace creation, data monitoring, and analysis.

O-Insights Reporting enables users to generate a variety of reports with automatic email delivery or saving, customizable templates, and user job scheduling for meeting all the reporting needs.

The integration with Milestone Maps allows sensor data visualization on Smart Maps.

This powerful suite enhances operational efficiency and decision-making across diverse video management scenarios.

Minimum Server Requirements

CPU:

Quad-Core CPU with Hyper-Threading or better, Clock Speed: 2.5 GHz or higher

RAM:

16GB or 32GB & more for large systems
