

CERTIFICATE

Athens, 12 May 2017

To whom it may concern

This is to certify that Mr. **Gregory Retish** has successfully worked as **EE engineer and audit expert** for the project “**Policy development for transposing the EE Directive 2012/27/EU**” for Moldova, with work input **55 working days** in the period **20/5/2016 to 30/10/2010**. The project was carried out by EXERGIA under a Contract with the Ministry of Economy (MoE), was managed by the MEPIU and financed through the SIDA Grant No 3040015.

Specifically, the expert provided significant input in the following tasks:

- Analysis of the draft NEEAP and calculation on indicative national targets, targets for rehabilitation of buildings of the central Government and Energy Efficiency Obligations.
- Provision of input for drafting of parts of the new Law on EE as well in the relevant secondary legislation with focus on CHP and energy auditing schemes
- Carry out technical and cost analyses as an input to Regulatory Impact Assessments
- Contribution to the comprehensive assessment of national heating and cooling potentials including high efficiency cogeneration and district heating as per Art. 12 and Annex 3 of the Law 92 of May 29, 2014 (Annex VIII of the EE Directive 2012/27/EU)

He performed his duties absolutely satisfactorily, exhibiting in depth know-how and high level of professionalism, always within the time schedule. His assignment was completed successfully.

George Georgocostas
Team Leader,
General Director and authorised representative of EXERGIA S.A.
