Usage:

Find the liquid bag in the ice bag and make it broken and 3 seconds later it will be frozen. Then shake the bag up and down to make the content fully mixed, and the temperature will be depressed below zero by the ice bag in 2 minutes.

Purpose:

To control and alleviate the sore and pain caused by strain, bruise, pull and burn, also can rapidly remove the pain and discomfort induced by fever, headache, toothache, mosquito bite.
Freeze and keep fresh vegetable, fruit, beer, beverage and food and so on when no cold source available.

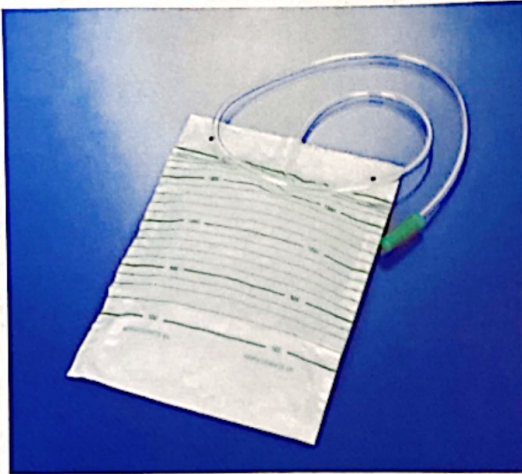

Precaution:

The ice bag can only be used for external medication. If eye or skin should contact the content, it must be washed by clean water thoroughly. If one eats the content by mistake, he must drink enough water, try his best to vomit it and turn to doctor when necessary.

In order to avoid a too low temperature, it should be better to wrap the ice bag with a towel or cotton cloth to begin with. Those who have something wrong with their circulation system should refer to doctor in advance.

Characteristic:

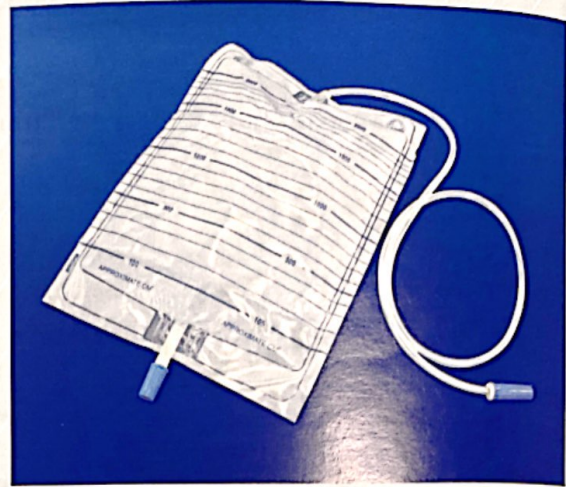

This product can refrigerate instantly without cold source and be easily used because of portability.
