“OUR BEST PROTECTION
FOR YOUR FUNCTIONAL
AND PRACTICAL NEEDS.
THE TWINNING OF ART AND SCIENCE.”

About ASAP

In an era of exposure, ASAP provides the best protection for your functional and practical needs. We have been exploring the idea of art and science since 1988 and have perfected the combination, through experiences in the industry since then.

Our customers come from different parts of the world. We partner with those who have strong networks + high credibility + experienced brand developers, to ensure quality products and services throughout.

Since its launch, ASAP has expanded our range to offer products not just from the medical sector, but to a wide variety of other industries and needs.

'LIFE MATTERS' is one of our many fundamental core values. To honour each and every element of life, as well as highlight the importance of protection for every application, we are inspired to embark on corporate social responsibility projects that pertain to the conservation of endangered lives.

Choose a masterpiece of art and science, choose life which matters, choose **ASAP**.

TWINNING OF “ART & SCIENCE”

“ASAP” stands for “Art & Science of Amazing Protection”. True to our name, our concept combines the elements of Art and Science, in providing the Art of protection merged with improvements achieved through the wonders of Science.

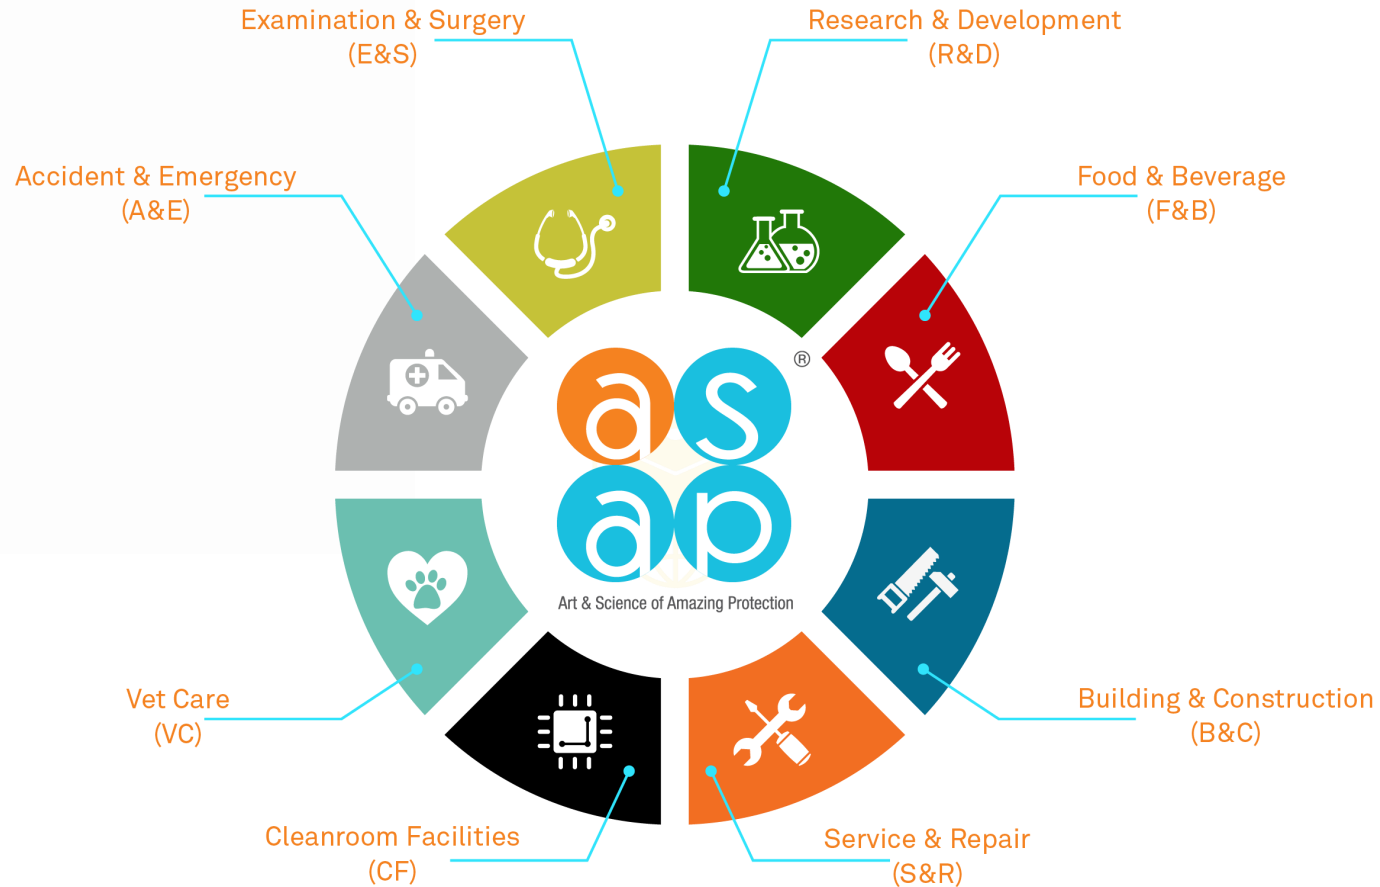

ASAP products are made uniquely to cater to medical, research & development, building & construction, cleanroom facilities, food & beverage handling as well as other industries’ use. A wide range of disposable products standing at more than 150 SKUs is currently offered and we are continuously expanding to meet your needs.

Put simply, ASAP products are the result of innovative ideas and advanced technology. It is this formula that has propelled our products to the industry’s forefront, and that continues to set industrial benchmarks.

To discover what ASAP is all about, simply slip on our products, and be captivated by the art and science of ASAP!

ASAP's products are made to fit a wide range of industries, from medical to industrial and more.

At ASAP, we are committed to hygiene control and quality assurance. Proper hygiene standard is practiced throughout the development of all ASAP products from raw materials handling, processing, production, inspection, to our finished product to deliver high quality products while limiting risk of cross contamination.

Look for the Hygiene Matters logo, quality and hygiene you can trust
